THE SOURCE FOR NEWS AND STRATEGIES STRAIGHT FROM THE PROS

POWERLINE

● We're including something new this month: a review of an all-time classic space game, **Metroid**. Ever since they first battled the insidious Mother Brain, players have been clamoring for a sequel. Next month, they'll get it! We could think of no better way to introduce it than to retell the original story and present complete maps and collector's tips. Finally, Samus Aran returns!

boy Bart is back too—back from camp! In **Bart Simpson's Escape From Camp Deadly**, he and Lisa discover that Camp Deadly isn't all that the brochures promised. Their counselor is hard core, the fun and games aren't, and the food stinks. It's Dullsville, man. Breaking all the rules is par for the course as Bart adds some excitement to Camp Deadly's schedule.

● For the Super NES, this month's feature, **F-Zero**, is a fantastic, futuristic space race that pits humans against aliens. Not just your regular space simulator game, F-Zero has three skill levels and 15 tracks with varied and vivid background scenes. Control of the super jet pods is precise and enhanced racing sound adds to the excitement. Rounding out the Super NES Showcase are the long-awaited **Super R-Type** and a great new golf game, **Hal's Hole-In-One**.

● For Game Boy, the Belmonts are back in a new adventure, **Castlevania II—Belmont's Revenge**. Bad

the Enterprise to be rejuvenated when they run low on energy.

● And speaking of treks, wait until you see this month's Player's Poll Contest. The lucky winner can start planning now for a family vacation! One lucky Paper Boy 2 fan will have the chance to become a power biker and take the whole family on a mountain bike adventure. Then the winner will return home with the bikes, which will get the papers right to subscriber's porches. Check out all of the details on pages B2-B3, then be sure to send in your entry. You never know—you might be trekking yourself next spring!

● Also this month, we're issuing an official Trekkie alert. The space ship Enterprise beams the entire **Star Trek** crew down to the NES for a stellar video adventure. The commanding Kirk, unflappable Spock and others from the original Trek team take on a new challenge and, in the process, meet some new beings and some old adversaries. One of the game's great features is that your characters can beam back up to

AMERICA'S MOST WANTED

If you've been elbowed out of your Nintendo zone by a parent, you aren't alone. In June's issue we asked readers to send pictures of parents hogging the action. As you can see from this month's letters, there are lots of culprits out there.

ACCUSED CLAIMS SHE'S INNOCENT

I caught my mom "in the act" one day after school. When I opened the front door, she hurriedly turned off the power of the NES and took out the Wheel of Fortune Game Pak. I asked her what she was doing and she replied, "Oh, I'm just cleaning." That was a little hard to believe, knowing that Wheel of Fortune is her favorite game show, but she didn't admit anything. I think that she should be added to the ten most wanted list for parent players. Her name is Janet Spriggs.

**Jeffrey Spriggs
Washington, PA**

MOM TAKES OVER TETRIS

I received a Game Boy for my fourteenth birthday. I was very pleased with it, but less than a week later I lost it. I didn't misplace it or drop it down the garbage disposal—the fate I suffered was much worse. I was playing Tetris and I had just finished Level 9-1 when my mother sat down and started watching me. A few minutes later she asked to play. She's been at it ever since. Even as I write, she plays. I don't think I can stop her. Help!

**Andy Carron
Desoto, MO**

APB: MISSING MOM

We're writing to tell you that our house is filled with Nintendo maniacs, especially now that our Mom has started playing! She has saved the princess in Super Mario Bros. and is now playing Dr. Mario. She's pretty good and can get to level 23, but we have to compete with her for our turn to play. Sometimes when Dad comes home from work he asks where Mom is. She's playing Dr. Mario, of course, and saying, "Just one more try and I'll stop!" My brother and I were really happy when we finally saved enough money to buy a Game Boy. Then one night, my Mom picked it up and started playing Tetris. Now, if she goes to one of our baseball games, she takes Game Boy to play! She's up to level 10 on Tetris and keeps trying and trying. The only one not hooked on Nintendo yet is our Dad, but we're working on him, too!

**Jamie and Chris Schweitzer
Tampa, FL**

Prod son Leo Schweitzer saves the princess.

NINTENDO MOM "GONE CRAZY"

My mom, Janice Neil, is a Nintendo Mother gone crazy! She has finished eighteen games. Among them are Zelda I and II, Dragon Warrior I and II, Final Fantasy, Hydlide, Ultima, StarTropics, Willow, Strider, Maniac Mansion, Legacy of the Wizard, Clash at Demon Head, Faxanadu, the Magic of Scheherazade, Crystalis, and Shadowgate! She is almost done with Castlevania III: Dracula's Curse. When she's not busy playing games, she's a good nurse, a Girl Scout leader, and an all-around great Mom.

**Carolyn Neil
Richmond, VA**

Nintendo mom Janice Neil says Nintendo Power is hip.

FROM THE FELON FILE

File #117432B
Name: Marie "Quick Fingers" Kristjanson
Age: 25 (she claims)
Charge: Playing Dr. Mario non-stop for five hours
Date of Arrest: May 4, 1991

**Douglas Kristjanson

DAD BECOMES VIDEO MONSTER

When we bought The Legend of Zelda in 1988, we didn't realize we were unleashing a monster. My Dad became addicted, playing at night on weekdays. He just couldn't stop! Some weeknights he would stay up until 4 or 5 o'clock in the morning trying to defeat Ganon. He would sleep for two hours, then get up and go to work at 7 o'clock. Finally, four months later, Dad finally beat Ganon in a showdown at Death Mountain. Life settled down for awhile, but then, last year, we got The Adventure of Link... Mistake! Normality was just a dream.

**Ted Plothe
Decatur, IL**

CRIMINAL NEGLIGENCE

My Dad doesn't really play with our NES very much, but he has an unbelievable addiction to Game Boy Tetris! He has become very good at it, and if I want to play, I often have to wait for 20 minutes or more before I get a turn. Sometimes Mom hides the Game Boy so he'll pay more attention to her.

**Chad Butt
Saint Joseph, MI**

FANTASTIC FEATS BY POWER PLAYING FEET

My name is Jason Schatz and I am 13 years old. Last year in February I purchased my NES with my own money. It was one of the best things I ever did! To date I have beaten 31 games, including all three Super Mario Bros. games, all three Mega Man games, Double Dragon 1 and 2, both Zeldas, Dragon Warrior, Final Fantasy, and many others. Last June I had an accident which severed my thumb muscle. I couldn't use it all summer, but that didn't stop me from playing! Using the Advantage, and a wecky idea, I learned to play with my left hand on the joystick and my feet on the buttons. Not only did it work, but I beat Super Mario Bros. 3 with my feet! Now that my thumb has healed, beating games with my feet is just for show.

**Jason Schatz
Oxford, MD**

Jason can hook the socks off the controller with one hand tied behind his back.

MORE FANTASTIC FEET!

Recently my 15-year-old, Scott, was involved in a bad accident in which he suffered severe injury to both of his hands. During his stay at the hospital he became terribly bored just sitting and watching TV. One day he had his feet sticking out of the hospital bed and he said, "I bet I could play my NES with my toes if they would bring it in here." The nurse came back and rolled a portable Nintendo system into his room. Scott immediately began playing it with his toes. We were all amazed! He was released from the hospital but still wore bandages at home. When Scott's friends came to visit he challenged them to a game of "Ninten-Toe". He beat them all!

**Mrs. Kristi Waymire
Peru, IN**

Scott's fixings are as much for his power playing toes. He's a shoe-in!

FLY INTO THE FUTURE

High above the cities and wastelands of 26th Century Earth hover the fastest, most dangerous machines known to man or mutant. Their pilots are steely nerved competitors, driven to be at the top of the heap. F-Zero takes you to the aerial arenas of these futuristic fighters with smooth action and amazing special effects.

F-Zero Grand Prix resorts compete on tracks that hover over the 26th Century landscapes.

High tech obstacles and sharp corners are designed to slow down speeding vehicles.

RACE FOR THE RECORD

GRAND PRIX

The three leagues of the Grand Prix Circuit each feature five treacherous tracks. If you finish in the top three, you'll move on to the next track. Advanced tracks provide advanced challenges.

The tracks become more challenging as you race through the circuit.

PRACTICE

In the Practice Mode, you can test seven of the most challenging tracks on the circuit and register your best times into the record books.

Practice some of the most challenging tracks on the circuit and register your best times into the record books.

Put your best time in the books.

JUMP INTO THE DRIVER'S SEAT

F-Zero uses every button on the Super NES Controller to effectively put you in control of your own racing machine. The Control Pad is used for steering. The B, A, X, and Y Buttons are used for controlling speed. And the L and R Buttons can make your machine lean into corners.

MOVE YOUR MACHINE

You can steer by pressing Left and Right on the Control Pad. By pressing Up and Down after you launch from a Jump Plate, you can cut short or sustain the flight.

Steer second screens by pressing Left and Right.

Press Up and Down while in the air to control your flight.

ACCELERATE

Keep your thumb on the B Button to blast off with maximum speed.

BRAKE

SUPER JET

Whenever you complete a lap, you'll earn a Super Jet turbo blast for a four-second boost of super speed.

Blast through rough terrain like a hero with a turbo boost!

The Super Jet is most effective in long straightaways.

DROP OUT

Press the Start Button to pause the action and you'll have the option to stop racing.

If the race isn't going your way, you may want to sit it out.

LEAN AND DIG

While you're taking sharp corners, you may slide wide. Press the L or R Button to lean left or right and you'll avoid sliding by digging into the corner.

With a good lean, your machine will corner like it's on rails.

Stay close to the edge on the inside and keep moving.

PIT ZONE POWER-UP

When you hit obstacles, rails and other machines, you'll lose precious energy. If you lose all of your energy, your machine will be headed for the scrap heap. Make sure that you duck into the Pit Zone when you need a quick energy refill.

It's easy to lose energy quickly when you're on a crowded, narrow track.

You'll come across the Pit Zone on every track. If your machine is low on energy, slow down and hit it power-up.

CHOOSE YOUR MACHINE

The pilots and their machines vary in strengths and abilities. Choose one that fits your own driving style.

BLUE FALCON

While the Blue Falcon doesn't stand out in any category, it's a good all around machine.

The main attribute of the Blue Falcon is it's tough shell.

Engine Unit	8F-2001 X 4
Max. Power	3200 Ps.
Max. Speed	457 Km/h
Weight	1260 Kg.

DR. STEWART

The great doctor from Met City comes from a long line of racing pilots.

GOLDEN FOX

Since the Golden Fox is the lightest machine in the circuit, it is also the quickest to accelerate.

Engine Unit	CF-2614 X 4
Max. Power	2950 Ps.
Max. Speed	438 Km/h
Weight	1020 Kg.

The Golden Fox is always the first machine to take the lead.

WILD GOOSE

The armored shell of the Wild Goose lets it take a lot of hits without losing much energy.

A strong exterior allows the Wild Goose to take a beating.

Engine Unit	ES-8302 X 3
Max. Power	3670 Ps.
Max. Speed	462 Km/h
Weight	1620 Kg.

PICO

The pilot of the Wild Goose is an ex-military trader and native of South Wind.

SAMURAI GOROH

Frome from G that this machine still hold the Fire Stingray from stolen parts.

FIRE STINGRAY

After it has a chance to warm up, the Stingray blazes by opposing machines.

While this machine is slow to accelerate, it corners well and has the highest maximum speed.

Engine Unit	RS-5025 X 2
Max. Power	3800 Ps.
Max. Speed	478 Km/h
Weight	1960 Kg.

CAPTAIN FALCON

The captain is a master of Port Town and a fierce competitor. No matter what the price, Captain Falcon will throw his hat into the ring.

LET THE RACE BEGIN!

The tracks of the F-Zero Circuit range from all-out straightaway sprints to sharp-cornered obstacle courses. Study them before you race and take note of winning techniques.

KNIGHT LEAGUE

Choose from among three royal F-Zero legends.

MUTE CITY I

This first course in the circuit features a few simple obstacles and a super straightaway on the home stretch.

ROUGH CURVE

Stay inside when you take this turn to avoid the machine-slowsing Rough.

START

SUPER JET

With a turbo blast of the Super Jet, you can make a bee-line through the Rough.

SLOW DOWN

Hit the Rough on the inside to slow down for this super sharp turn.

START

DON'T SLIDE!

If you turn too sharply on the ice, you'll lose control. Slow down, then hit the Super Jet on the way out.

BIG BLUE

This race over the water features a stunning view. Keep your eyes on the road though, and watch for ice!

STAY INSIDE

If you're following the outside rail here, you'll waste a lot of time. Cut in and keep racing.

The wide left coast make you overshoot the curve.

Follow the inside rail and keep racing.

SAND OCEAN

Many of the curves on this seaside course are sharp and narrow. Try to pass on the straights.

SUPER JET

Hit the turbo after the last curve and speed toward the finish line.

DEATH WIND I

Wind whips through this oval with a fury. Steer against the gale and aim for the center of the track.

SHARP TURN

This sharpest, narrowest curve in the Knight League is very tough in a crowd.

SUPER JET

The Super Jet counteracts the machine-slowing Rough. Hit it on this Rough-lined straightaway.

DASH ZONE BOOST

Hit the Dash Zone for a quick burst that will send your machine soaring at 900 Km/h.

Stay centered and alert for the Dash Zone.

Steer off from the Dash Zone with super speed.

SILENCE

The angular curves of the last Knight League course can be very tough. Take 'em easy.

START

WATCH THE CURVES

Stay centered, speed through the first curves, then take the others slow.

MINE FIELD

The short route here is littered with Land Mines. Aim for the center to avoid them.

EARLY ELIMINATION

The field of racing machines narrows after each of the five laps in a Grand Prix race. Make sure that your rank qualifies you to move on.

Watch your rank and race to victory.

Lap 2	10 Machines Qualify
Lap 3	7 Machines Qualify
Lap 4	5 Machines Qualify
Lap 5	3 Machines Qualify

QUEEN LEAGUE

MUTE CITY II

This second take on the Mute City track has the same basic layout as the first but has more obstacles.

STAY ON TRACK

It's easy to twist in the air and end up over the edge when launching from Jump Plates. Aim for a safe landing on a straight section of track.

ROUND THE LOOP

The distance is the same whether you race around the left or right edge of the loop. Choose the least crowded route and try not to slide into the sides.

DOUBLE JUMP

There are two Jump Plates in this series of curves. Hit them one after the other or barrel through with a Super Jet boost.

PORT TOWN I

The narrow curves and early jumps make this course a difficult one to come from behind. Keep up with the pack.

PULL AWAY

Magnets pull your machine toward the edges in this stretch. Press the L and R Buttons to lean in the opposite direction.

JUMP! JUMP!

Veer to the right from the start to hit the over-the-Rough Jump Plate, then blast off over the gap.

WORK TOWARD THE RAILS

If you stay near the inside rail, in most cases, you'll end up covering the least amount of track and earn a better time.

You can touch the rail slightly without taking damage.

RED CANYON I

The race over the red rocks is very fast and straight forward if you're familiar with the course layout.

TRIPLE JUMP

You can leap off the Jump Plates here to keep a straight and steady course. Blast off and fly over the edge!

If you jump over the track, magnets will pull you down.

Lag over the rail and out across over the corner.

STAY CENTERED

Shoot down the center of this passage and you'll avoid the zig-zagging sides.

SLOW OR SLIDE

If you don't cut your speed on these icy turns, you'll hit the rail. Look out!

WHITE LAND I

This wintery course is picturesque but packed with slippery traps. Beware!

WHITE LAND II

The second slippery course features one tough turn after another. Watch it!

INSIDE TURNS

Cut into the rail to avoid sliding here.

UPS AND DOWNS

The Jump Plates in this area are accompanied by Magnets that will pull you down. Press Down for a longer jump.

SUPER JET

The longest gap in the league requires super speed to cross. Blast off!

BOOST FROM BEHIND

Use the L and R Buttons to position your machine directly in front of a competitor. When the other machine hits yours, you'll surge forward.

When you're hit from behind, you'll get a quick surge of speed.

KING LEAGUE

MUTE CITY III

This narrow-tracked course is proof positive that the King League is for expert drivers.

MINE MANIA

Land Mines and the Rough make this a difficult area to negotiate. Hit the Super Jet and you'll get through in a hurry.

START

JAGGED EDGE

Center your machine and speed between the angular rails.

DEATH WIND II

The windiest of cities now features some super sharp curves. Drive carefully.

EASY DASH

This Dash Zone is in the free and clear. Hit it!

SUPER JET

Blast off on this straight and you won't notice the Rough.

START

WORK FOR A 1-UP

You'll earn points after you complete laps and ranks near the top of the ranking order. Earn 10,000 points and you'll net a 1-Up.

Lap Bonus	
1st Place	900 Pts.
2nd Place	600 Pts.
3rd Place	400 Pts.
4th Place	200 Pts.

Race Bonus	
1st Place	2500 Pts.
2nd Place	1500 Pts.
3rd Place	1000 Pts.

By earning points and collecting 1-Ups, you can accumulate as many as five machines in reserve.

DON'T DASH

If you hit these Dash Zones, you'll lose control!

SONIC START

When you're piloting the Fire Stingray, which always starts in the lead-off position, you can get a quick jump over your competition by veering toward the other machines and letting them bump into your machine from behind.

Let the competition push you into the lead early.

PORT TOWN II

The updated Port Town Course features the same dual jump arrangement as the original. Watch out!

SUPER JET

Hit the Super Jet as soon you pull out of the last set of curves and speed toward the goal.

DOUBLE DANGER

You'll encounter a hard curve to the right just after you've navigated a series of Mines. Watch out!

LEAN AND PULL

Magnets alternately pull left and right in this curved passage. Press the L and R Buttons to lean in the opposite direction so that you won't hit the rails.

JUMP OVER CURVES

Use the Jump Plates to fly straight over the angular curves.

RED CANYON II

Play the part of daredevil in this second Canyon and go for a really big leap!

SUPER JET

Center your machine and ignite the Super Jet to zip through this corridor.

FIRE FIELD

This curve-filled course is the most challenging by far. Study every corner and cut down on your time wherever possible.

START

STAY OFF-CENTER

The Magnet in the middle pulls you toward the barrier. Lean away.

CUT OR PIT

Veer right and you'll cut straight to the goal. Veer left and you hit a Pit Zone and Dash Zone.

Stage Select

Skip to an advanced stage of this futuristic thriller with an easy-to-enter Stage Select code. Make sure that both Controllers are plugged in, then press and hold the A Button on Controller I and press the Reset Button on the Control Deck. The game will reset and the American Sammy logo will appear on the screen. Next, press either the A Button or the B Button on Controller II. If you pressed the A Button, the message "Stage Select 21A" will appear and you'll be able to begin in any section of any stage of the game. If you press the B Button, the numbers "00" will appear and you'll be able to select any stage and start at the beginning. Press Up and Down on the Control Pad of Controller I to change the numbers on the screen, then press the Start Button to begin on the selected stage.

Press and hold A on Controller I and press Reset on the Control Deck. Then press either A or B on Controller II.

If you pressed A, you can select any section of any stage.

If you pressed B, you can start at the beginning of any stage.

Character Change

Our agents have come across a curious code for this space adventure. While it won't power-up your ship or send you to advanced stages, it will change your outlook on the game. At any point in the game, press and hold the A and B Buttons and press Reset on the Control Deck. You'll notice right away that things have changed on the title screen, as the Option symbol that points to the assorted choices on the screen will be in the shape of a galloping horse. When you start the game, you'll see that other characters have changed as well. The Ship, for example, changes from its normal shape to an indescribable jumble. Power-Up symbols become Chinese characters and the stage titles change from block letters to italics. Play the game in this different state and take a look at what else has changed.

Press and hold A and B, then press Reset on the Control Deck. You'll notice a change to the Option character on the title screen right away.

Play the game and check out the other character changes that have occurred through this strange code.

Top Secret Hide-A-Way

By unlocking the Top Secret Area in the Donut Plains, you can earn an unlimited supply of Cape Feathers, Fire Flowers and 1-Ups whenever you need them. You'll find the entrance to the Top Secret Area in the rafters of the Donut Ghost House. Get a Cape Feather from a red-Caped Super Koopa in Donut Plains 1, then enter the Donut Ghost House. There's a second level of the Ghost House that you can get to by flying up and to the left. Run to the right first so that you get a good running start, then run to the left with super speed and jump when you get close to the left wall. Run to the right once you get to the second level, then release the four 1-Ups from the Blocks near the door and leave. This alternate exit will put you on the path to the lucrative Top Secret Area.

Enter the Donut Ghost House with a Cape, run to the left and fly up to the 2nd floor.

Run to the right until you reach a door in the alternate exit.

Once you go through the Exit Gate, you'll be on the path to the Top Secret Area.

Power Up in the Top Secret Area with 1-Ups, Cape Feathers and Fire Flowers.

Quick Save

While you can save your progress whenever you complete a Fortress, Castle or Ghost House, there may be other times that you'd like to record your accomplishments. Since it's quick and easy to get to the alternate exit of the Donut Ghost House, you can save your progress anytime. Enter the Ghost House with a Cape, then fly up to the second floor and run to the exit. You'll be given the option to save your progress and continue playing!

Fly to the second floor of the Donut Ghost House and run to the exit on the right.

You'll be able to save your progress in an Area, then take a break!

Cape Maneuver

By swinging Mario's Cape with the Spin Jump or Standing Spin, you can hit enemies and Blocks from the side. This is an especially useful maneuver in the five-floor chambers where the three Blocks on each floor must each reveal an "O" in order to produce a 1-Up. If you hit the Blocks from below, there's a chance that some of them won't show an "O". If you hit them with the Cape from the side, though, you'll have a 100% success rate. Just step to the side of each Block, Spin Jump by pressing the A Button and, when you hit the Block, an "O" will appear. The third Block on each floor will produce a 1-Up.

Hit the Blocks from the side with the Cape by Spin Jumping and they'll show an "O" every time. When you hit all three of the Blocks on a floor, you'll earn a 1-Up.

1-Up Bonanza

The dozens of Koopas in Vanilla Secret 2 can help you earn as many as 50 1-Ups at a time. First, you'll have to get to this secret area. You'll be able to branch off to the left of Vanilla Dome 1 and head toward the Vanilla Secret areas easily if you hit the Switch in the Red Switch Palace. The Key to the Palace is in Vanilla Dome 2. Swim through this water world until you have a chance to go out of the water and to the left. You'll find a P-Switch there. Carry it to the left until you get to a wall. Then hit the P-Switch, run through the Coins to the left and drop into the second gap. You'll find the Key and Keyhole there.

Jump out of the water in Vanilla Dome 2 and climb up the hill to the left.

Carry the P-Switch to the wall of Blocks.

Hit the P-Switch and drop into the second gap to the left.

Find the Key and the Keyhole, then attack the path to the Red Switch Palace.

Once you've hit the Switch in the Red Switch Palace, you'll find stairs and a platform made of red Blocks in Vanilla Dome 1, allowing you to reach the Key to the Vanilla Secret areas.

The red stairs in Vanilla Dome 1 lead to the Key to the Vanilla Secret areas.

Make your way to and through Vanilla Secret 2. Then re-enter the area, break through the Middle Gate and leave quickly by pressing the Start Button and the Select Button. Now you'll be ready to perform the trick. Enter Vanilla Secret 2, move to the right until you get to a Spiny-filled area and hit the second Block to reveal a grey P-Switch. Take the P-Switch to the left and hit it when you are between two purple Pipes. All of the enemies in the area will turn into grey Coins. Run to the left with super speed and collect as many coins as you possible can. You'll first earn progressively more points, then you'll earn as many as three 1-Ups per Coin. By the time the Coins turn back into enemies, you'll have earned 40 to 50 1-Ups!

Once you've completed Vanilla Secret 2, head to the middle, leave and re-enter.

Grab the grey P-Switch in an area that is crawling with Spynies, then run to the left.

Hit the P-Switch when you reach the two purple Pipes.

Run to the left, collect grey Coins and earn a ton of 1-Ups.

STAR TREK[®]

The Final Frontier...

For a quarter of a century, the Starship U.S.S. Enterprise™ and her crew have been carrying out their mission "to explore strange new worlds... to seek out new life and new civilizations... to boldly go where no one has gone before." And now, on the year of STAR TREK's 25th anniversary, the Enterprise warps into the world of the NES. STAR TREK, from Ultra Games, finds the original crew in uncharted space with little power and no dilithium crystals. As Captain James T. Kirk, it's up to you to

lead your ship to safety by giving orders to the crew on the bridge, heading search parties on planetary surfaces and looking for a way to bring power to the ship's engines. When you're on the bridge, the game takes on a role-playing atmosphere. Crew members give you details on the ship's position so that you can make decisions based on what they have discovered. The action heats up when you beam down to the surface of unknown planets. In your search for dilithium crystals and

clues, you'll encounter strange aliens, mysterious traps and many helpful items. While there are several planets that you can explore, this review covers only the four planets to which you must travel in order to complete the mission and return safely to Federation space.

The Adventure Begins

Captain's Log: Stardate 2831.3. While exploring strange gravitational disturbances in the Sigma Iotia System, our ship was caught in a huge dimensional gate. Unable to break free, we were pulled into the gate and have now been sent to uncharted regions of space. Mr. Scott has

informed me that warp engines are down, we have no dilithium crystals and we will lose impulse power in two hours. Our only hope is to beam down onto the planet that we now orbit and find a way to power the ship. The search party will consist of myself, First Officer Spock and Dr. McCoy.

	MR. SULU Mr. Sulu provides you with status on the ship's position.
	MR. SCOTT Consult Mr. Scott on details regarding the ship's engines.
	DR. McCOY As the Chief Medical Officer, Dr. McCoy keeps track of the crew's health.
	MR. CHEKOV For information on the neighboring planets need to plot a course, consult Mr. Chekov.
	MR. SPOCK Science Officer Spock scans planets for life forms and geological information.
	LT. UHURU As the Communications Officer, Lt. Uhuru attempts to contact other vessels.

Take Control

While you command your ship, the crew provides you with information on your current status.

Consult the members of the crew, then plot your next move.

	STELLAR MAP Plot a course to neighboring planets.
	RED ALERT If evasive action is needed, you'll have to man battle stations.
	TRANSPORTER Form a party of three and explore a planet's surface.
	COMMUNICATOR Open hearing frequencies and attempt to contact vessels in the surrounding area.
	SAVE YOUR GAME The Access Order works as a password. Write it down when you're ready to stop playing, then enter it to pick up where you left off.

START HERE

You'll see a total of 26 planets in your journey, though you will not be able to visit them all because of their hostile environments. Very little is known about the planets on the map below.

MASABA

Mr. Spock's readings indicate that there are dilithium deposits in a structure on the planet's surface. The structure resembles the Aztec Pyramids of Ancient Earth and it is producing considerable amounts

of energy. There are also life forms in the immediate surrounding. Mr. Spock suggests that you form a landing party and beam down to investigate the structure.

There are dilithium deposits hidden within the structure. Search the village and swamp for a key.

BEAM DOWN

Your landing party will beam down to a forested area on the planet that is infested with blood worms and shooting plants. Stun a plant and take a sample.

The Village of the Cat People

A village elder will tell you that the structure to the north is a temple and that the key to the temple has been lost in the swamp. Talk to the medicine man of the village and he will make a repellent for you that will work against the swamp's many blood worms.

Give the plant sample to the medicine man.

Analyze and take the repellent made by the medicine man.

Leave the village and head for the swamp.

The Swamp

A creature named Adengu has taken the Eye of Kakos to the swamp. The Eye works as a key to the temple. Tricorder readings indicate that there are life forms close by. Stun them if they attack and search for the Eye in the swamp's grassy areas.

Blood worms stay away when you're carrying repellent.

Stun the beasts of the swamp if they get too close.

You'll find the Eye of Kakos in the southeast.

The Temple

Enter the temple by using the Eye of Kakos and take note of the designs on the temple walls. Eventually, you'll come to a series of rooms with floor tiles that mirror the wall designs. Walk on the tiles in the correct order and you'll pass several dart-shooting statues unharmed. In the heart of the temple, there are more designs and a series of panels. Touch the panels in the right order and the door to the dilithium will open.

Open the temple with the Eye.

Copy the designs on the wall.

Enter the tile room alone.

Walk on the tiles in the right order.

Touch the computer room panels.

The dilithium is in the next room.

Beam Up The Dilithium

The dilithium deposits act as a power source for the temple. The few crystals that you need for the U.S.S. Enterprise's warp engines though, will not effect the source's energy output. Beam them up to your ship.

The power source for the temple is pure dilithium.

Beam some crystals to the U.S.S. Enterprise for her warp engines.

WARP TO LEKYTHOS

The dilithium crystals that you picked up in Mesaba will only take you as far as this planet near the edge of Romulan space. Sensors have picked up some traces of dilithium. Beam down to the surface with a Geologist and a Security Officer to investigate. The Geologist will help you track down the

dilithium and the Security Officer will bring along some much needed fire power. When you reach the planet's surface, follow the Geologist's directions to the dilithium. Once you have it, beam back to the Enterprise and return to the planet with Mr. Spock and the Security Officer.

Investigate the planet's surface and the alien structures for dilithium.

SPOCK'S ODDS

While Mr. Spock will tell you that odds for finding significant dilithium deposits are slim, you'll have to take your chances.

HIT THE WALL

The Geologist will point out a wall that contains dilithium. Fire on it with phasers on full.

Shoot the wall with several full power shots to expose the dilithium.

To The Alien Structure

A powerless robot blocks the path to the Alien Structure. Mr. Spock will be able to move it out of the way by using the dilithium crystals. Continue to the structure, then fire on the door with phasers.

Use the crystals to move the robot from the path.

Watch for dangerous creatures on the way.

Open the structure's door with phaser fire.

Pick Up The Pieces

You'll find a computer module and a piece of trash in the eastern part of the building. Take them and look for two more modules. One is behind a force field and the other one is guarded by security robots. Throw the trash through the force field onto the first module.

Collect a module in the eastern part.

Activate maintenance robots.

Pick up some trash.

Toss the trash.

Fix the robot.

Hit the security robots.

Activate The Computer

Once you have all of the modules, seek out the main computer and put the modules in their proper places. When the computer is operational, you'll be able to enter a room in the southwest where you'll find a considerable amount of dilithium.

Put the modules in their proper places.

Enter the room and collect the dilithium.

PLOT A COURSE FOR SHROUD IV

With the amount of dilithium that you've collected, you'll only be able to make it to Shroud IV in the Neutral Zone by crossing Romulan space. On your way, you'll be intercepted by a Romulan ship. Communicate with the ship's cap-

tain, explain that you mean no harm and he will understand after examining your ship's records. As long as you don't panic and call for a Red Alert, you'll be able to make it to Shroud IV without a scratch.

A ship will stop you as you cross Romulan space. Explain your situation and you'll be allowed to move on.

HUNT AND GATHER

There are a few seemingly insignificant items on the surface of Shroud IV that will come in handy. Pick up everything that you can.

A root and flower are two items that you should pick up to use later.

Visit The Inn

No episode of STAR TREK would be complete without a beautiful green alien woman. Enter the Inn to the east, collect the passcard and you will find such a specimen in one of the rooms. Charm her with a flower, Captain, and she'll hand you a remote control.

Take the passcard of the Inn.

Use the passcard to enter a room.

A flower will earn you the remote control.

Move The Rock

There's a huge rock just to the west of the Inn. Use the remote control to move the rock and you'll find several useful items: a bottle of Saurian drink, a sack of credits and a letter from the infamous Harry Mudd to a group of Romulan renegades. Return with those items to the Inn, then use the Saurian drink and root in the Inn's food synthesizer to make a sedative.

Steal a bottle of Saurian drink and collect it.

Use the remote to move a boulder.

Collect several items.

Use the Saurian drink and root.

You'll create a very strong sedative.

Give the sedative to the bartender.

A Confrontation At The Bar

Inside the bar, you'll meet up with an old acquaintance by the name of Gorn who is, naturally, blocking a doorway. Use the butterfly to distract him. Then pass by and purchase a scanner from a shady character in the next room.

Rebuke the butterfly near Gorn.

Give the credits to the character in this room.

You'll get the infrared scanner for the credits.

Meet With Mudd

In the room just south of where you bought the scanner, you'll be able to listen in on a conversation with Harry Mudd and a pair of Romulans. Work your way around to where Mudd is and give him the letter.

Listen to Mudd and the Romulans.

Walk around to intercept Mudd.

Give Mudd the letter.

The Plot Thickens

Mudd is up to something and now he has Spock's communicator. Look for him at the Inn. You'll get a message from Mr. Scott that there's a disturbance nearby. He'll beam you to the scene. Walk to the southeast and use the scanner.

Scott will contact you at the Inn.

Use the infrared scanner.

The scanner picks up footprints.

OFF TO FEDERATION SPACE!

Now that you have plenty of dillithium crystals, you can return to the safety of Federation space. There's still the issue of how you got in this mess to begin with, though. Plot your course for Iotia, which is where you were at the beginning, and investigate.

Explore The Base

It seems that Mudd was going to exchange Federation documents for a cloaking device with the Romulans, but the Romulans decided to take Mudd as a prisoner instead. You'll find Mudd and a crate of dillithium crystals in the Base. Stun the guard, save Mudd and he'll reward with both the documents and the device.

He's stunned, Jim.

You'll find a party from Mudd outside.

Mudd would if you're caught.

Return to Mudd's room at the Inn.

Analyze the switch and free Mudd.

Collect the cloaking device and the documents.

Warp To Iotia

There's bound to be an explanation for recent events. Return to Iotia and try to pick up a few clues.

Catch Up On Your Reading

Beam down to the surface of the planet so that you can learn about the lotians. Outside the deserted library, you'll find a pile of books. Use the library computer and you'll learn that the lotians made a big mistake. Now, you've got to set things right.

Blast To The Past

While the lotians were not as advanced as the humans and many other species, you'll learn that they did happen upon a Federation communicator the last time members of the U.S.S. Enterprise crew were on the planet. By studying this highly technical piece of equipment, the lotians were able to develop their own technology and experiment with dimensional gates. The experiments back-fired, however, and resulted in creating the massive dimensional gate that sent the U.S.S. Enterprise to parts unknown. Now, you must return to Iotia of the past and locate the communicator before it gets into the wrong hands.

Warp to the past and right the lotians' wrongs.

REVISIT IOTIA

The last time that you visited Iotia in this same time period, Dr. McCoy made a terrible mistake and left his communicator behind. Your mission now is to get the communicator back from whoever has it and

make sure that the doctor doesn't make the same mistake twice. Beam to the surface of the planet with Mr. Spock and Dr. McCoy. You'll see that Iotia is a thriving but somewhat primitive planet.

Fight Crime

As soon as you beam down, walk to the west and enter a small pawn shop where a robbery is taking place. Stun the thieves before they have a chance to get away.

Stun the robbers before they flee.

Get a reading from an enconscience that.

Talk to the storekeeper after you thwart the robbers and he'll hand you a deck of marked cards. You may need them later.

Search And Collect

There are several items scattered throughout the city streets that you should find to be useful in your journey. Never hesitate to pick up anything or help a person in distress.

Save this kid's dog and he'll give you a gambol.

Check the streets and soon you'll discover a balcony.

Pick up a stick and add it to your inventory.

Take A Gamble

You'll find an unconscious hoodlum in the casino. If you revive him, he'll ask you for the "rocks". By quickly researching lotian slang, you'll discover that he wants the diamonds. Give them to him and take a set of counterfeit plates in exchange.

Exchange the "rocks" for the plates.

Catch A Coin

Analyze the street grating in the northeast and you'll find a coin that is just out of reach. Then get a phone number from the bartender at the casino and you'll be able to use the coin to call a contact.

Use a combination of items to get the coin from the grating.

Get the number that you learned from the bartender.

Meet in private with one of the gang leaders.

BE PERSISTENT

You'll find that you're covering a lot of territory in lotia. All the pieces of the puzzle are there. You just have to fit them together. Keep trying.

Cops, Cash and Crooks

The crime ring in the city centers on a counterfeiting operation. Now that you've got the plates, you can put an end to it all. First, though, you're going to have to get the communicator back the same way Dr. McCoy lost it in the first place; gambling!

Certainly, you'd want to live the plates in to the cops.

Work up the playing, you can get your hands on some dough.

Use some counterfeit cash and bid yourself a game.

Enter the back room of the casino.

Pay the dealer five grand to get into the game.

Fizzbin's the game and the stakes are 5000 bucks and one Federation communicator. Meet the dealer in the back room of the casino and ante up. If you know when to hold 'em, know when to fold 'em and know when to slip in the deck of marked cards, you'll walk away one communicator

Make the card count when the time is right.

richer. Just remember, a super nova bests a black hole, and you should be able to beam away without causing any catastrophes in the near, or far, future.

It may not have been right to change history but, if you hadn't, the consequences would have been disastrous. Sometimes, it pays to take a gamble and make a bet with destiny.

THE SCOUTING REPORT:

Exhibition games are a good time to scout the strengths and weaknesses of the other teams. Just like in spring training, these games are also a good place to test different combinations of players. Try playing without a designated hitter (DH) and see how well your pitcher can hit!

EXHIBITION PITCHING SEASON P-330RD

A POSSIBLE CHAMPIONSHIP SERIES?

You never know who you might play in the Championship series. Choose teams from either league and play out your own dream games!

MAJOR LEAGUE GRAPHICS WITH A TWIST

These players have all the big league moves. Watch them make a spectacular play! The realistic animation makes for one of the best NES baseball games we've ever seen!

BATTING

Fast reflexes and the ability to anticipate the next pitch are skills needed to hit the ball.

PITCHING

Keep 'em guessing with a tricky curve ball or change-up.

Watch the runner as well. You never know when he will be stepping.

FIELDING

Because of the unique perspective, you'll have to stay on your toes to field the ball from the player's view point.

Make an impossible catch!

STEAL AWAY!

Stealing is a risky way to move players around the bases, but if they score it will be well worth the gamble!

Outpace the leg. Watch where the leg is going and slide the opposite direction!

PENNANT FEVER

Some say that this is the only part of the season that counts. Your team has chased the division leaders all season long, but now it's time to really play some baseball.

STAR WARS

HOW DO I FIND PRINCESS LEIA?

Princess Leia is being held captive in the huge Death Star, but to find her quickly you will need some help. In this case, R2D2 is your man (or rather your robot). You can pick up the helpful little droid in the Sandcrawler on Luke's home planet. When you reach the Death Star, fight your way to the computer room and switch to R2D2 on your subscreen. The droid can now access the main computer of the Death Star and display a map of

the ship. Conveniently marked on the map are the locations of walls, elevators and your goals. One of those goals is Princess Leia, who can be found in the upper right corner of the Death Star. If you have trouble reaching the goals, remember that the trick to surviving in this game is knowing exactly where the enemies attack and when. In the Prison area of the Death Star, you will find elevators and prison cells. The prison cells have purple doors and the rooms

are blue. Elevators have directional arrows. From the entrance, take the second "down" elevator to the right. Jump over the swift droid on the second floor and make a running jump to the left platform, then take the next two elevators down. Now go to the far right and take the elevator up. The final elevator takes you far down to a ledge with two prison cells and a power up ball. Leia is in the second cell. Once Leia is on your team, you can use her like the other characters.

A display of the Death Star's floor plan appears after R2D2 is selected from the subscreen. Princess Leia's location is indicated by the red square in the upper right area of the ship. The yellow-green squares indicate elevators, which you take to reach the various levels. The other red squares show the locations of the computer room and the tractor beam.

Rescue R2D2 from the depths of the Sandcrawler.

R2D2 can access the floor plan in the computer room.

Battle through the Death Star to rescue the princess.

Princess Leia is in the second cell on this level.

MANIAC MANSION

WHY DON'T THE METEOR POLICE SHOW UP AFTER I CALL THEM?

Chances are you'll want to call the Meteor Police if Bernard is in your party. He can fix the radio in Dr. Fred's room so you can contact the Meteor Police, who roam the galaxy in search of the elusive Meteor. Head down to the dungeon after you call

the "Comet Cops" and open the two doors that lead to Dr. Fred's lab. Use the glowing key to open the outer door and the combination from the Meteor Mess video game to open the second door. The Meteor Police have access to the inner realm once you open both

doors. If one or both of the doors remain closed, however, you'll see the Meteor Police give up and go home. If you enter the lab before the cut scene of the Meteor Police arriving occurs, the Police will not show up. Wait about five minutes for the cut scene to occur.

DO Use the radio to call in the Meteor Police to arrest the Meteor.

DO Open the first door to Dr. Fred's lab with the glowing key....

...and open the second door with the combination from the Meteor Mess video game.

DON'T Call the Meteor Police then leave the doors closed.

DON'T Let Bernard step into the outer lab room before the Police come.

DO Wait outside about five minutes until the cut scene occurs.

MANIAC MANSION

WHY WON'T WEIRD ED HELP GET RID OF THE PURPLE TENTACLE?

Heroes sometimes try to do too much all at once. That can be the case when you use different solutions to the same problem in Maniac Mansion. For instance, if Michael and Wendy are on your team, you can get Weird Ed to help get rid of the

Purple Tentacle by developing the film and giving him the plans, but you can also have Wendy type up the Meteor's manuscript and get a contract. The problem occurs when you go down to see the Purple Tentacle. If Michael has the contract, Weird Ed won't show up,

even if you gave him the plans. Maybe it's because Weird Ed thinks you are betraying his cause. Who knows? Just don't expect Ed to save you at the last minute by hauling the Tentacle away. In this case, you'll have to use the contract to pass the Purple Tentacle.

If Michael has the contract, Weird Ed will leave you to deal with the Purple Tentacle by yourself.

THE UNINVITED

Like many puzzles in this game, you must piece together a solution from several sources. Begin in the Study. There you will find a card in the desk that has six numbers on it. Those numbers are the Atomic

Weights of six elements. Scroll 2 mentions three elements—Gold, Silver and Mercury. The Atomic Weights for those three elements are the combination to the safe that holds Jar 3, and Jar 3 is where you find the cookie to feed

to the monster. Once you have the Jar, break it open using the Axe. This is the first time in the game that the Axe can be used in this way. Give the cookie to the monster and it will give you the key that opens the floor hatch in the lab.

Get the card in the desk.

Read Scroll 2.

Open the Safe.

Use the Axe on Jar 3.

Place cookie on plate in game room.

Now the monster can march.

THE UNINVITED

Although he's dead, the Servant Ghost still hates a mess, and spiders, too. Your job is to capture the Spider. Use the Spider Cider on the veranda railing and the spider will be paralyzed. Now you can take the Spider and use it on the Servant Ghost in the Servant's Quarters.

Use the Spider Cider on the railing.

The Spider can't escape from you.

The Ghost has arachnophobia—fear of spiders!

HOW DO I DEFEAT THE SERVANT GHOST?

THE UNINVITED

There is a simple way to open the closed door in the Church, but in the Uninvited, as in many tales of mystery and horror, sometimes the simplest things are the most difficult to figure out. In the house is a Gypsy Doll to which you must

speak. From this Doll you will learn the spell of O SESAME. Sound familiar? It may remind you of "Open Sesame"—the famous spell that is used on magically locked doors. Use the O SESAME spell while inside the Church to open the stubborn door.

HOW DO I OPEN THE DOOR IN THE CHURCH?

THE UNINVITED

The "classic" ghost will haunt you, and halt your progress unless you take drastic action. Like many creatures of the crypt, the ghost is afraid of fire. Use the matches to light the candles near the altar in the church. Take the candles with you when you go into the yard and the ghost will not bother you again.

Light the Candles near the Altar.

HOW DO I DEFEAT THE GHOST OUTSIDE OF THE CHURCH?

Take the Candles and go outside.

CRYSTALIS

Once you have the Gas Mask from Akahana, go to Oak and talk to the Dwarfs. None of them mention the

child because at this point the child is not lost. Next, visit Tornel and undergo training. After receiving Telepathy magic, return to Oak

HOW DO I FIND THE LOST CHILD IN THE SWAMP?

and talk to the people again. This time you will learn about the missing child. Finally, you can enter the poisonous swamp and rescue him.

Go to Oak and talk to the people.

Talk to a dwarf with forest.

Use the Telepathy magic.

Return to Oak and talk to the folk.

Learn about the lost child.

Rescue the lost child from the swamp.

CRYSTALIS

When your character fails to get through the barrier that blocks the path to Nadere's Inn, a message says that you don't have enough power. Even after getting the Tornado Bracelet and the Teleport spell you may receive this message if you used Teleport to go back to Leaf. Walk back to Leaf instead of using the quick Teleport spell and talk to the rabbit in the town. You'll

learn what happened to the missing people of Leaf. Finally you can head

up north to Nadere's Inn because the barrier will be gone.

Walk back to Leaf instead of using Teleport. Now talk to the rabbit and go to the path that leads to Nadere's Inn.

CRYSTALIS

After a meeting with your old friend Akahana, you'll head to the town of Goa. There you will find a corridor that is guarded by two lion statues that shoot fire sideways and blocked by a huge stone face that fires straight ahead between the sta-

tues. If you try to attack the Stone Face head on, chances are you'll get a nasty reception of shooting fire. Instead of attacking the Stone Face, avoid the flames by keeping to the far left side of the passage as you approach. In this way you can walk right up to the offensive

mask and receive a message regarding the town of Shyron. Return to Shyron and defeat Mado to win the Ball of Thunder. With the extra power of the Ball of Thunder, the Thunder Sword has enough gusto to defeat the Stone Face back in Goa. So Goa for it!

Go to Goa.

Keep to the left.

Shyron is under attack!

Win the Ball of Thunder.

Now defeat the Stone Face.

The path is clear.

I know all the answers!

STILL THE ULTIMATE SPACE ADVENTURE

METROID™

NES CLASSICS: HINTS AND TACTICS

When Metroid was first introduced for the NES in 1987, nobody had ever heard of Samus Aran. That changed almost overnight due to the game's super play control and the thrill of exploring a new world. Metroid was one of the first games that didn't force players to proceed in one direction. Beyond that, it was a challenge, and it still is.

A message is sent from the Galaxy Federal Police to destroy the Mother Brain and Samus Aran enters into the heart of the planet Zebes.

The rotating spinning-jump made Samus a difficult target for enemies. Since Metroid, many other games have adopted this technique.

The enclosed caverns of Planet Zebes opened in many directions. In each section, Samus encounters new dangers and valuable weapons.

INVASION OF THE METROID

A prate ship discovers the remnants of an ancient civilization and a bizarre alien race hibernating deep below the planet's surface. When word reaches the galactic core of this sleeping menace, a call goes out to destroy the Mother Brain. Only one officer of the G.F.P. is willing to go—Samus Aran.

Scattered throughout the tunnels of SR388 are powerful weapons and life-support energy tanks—remnants of the civilization that was destroyed by the Metroid. Some of these powerful artifacts are found in the open, but others are hidden in the ceilings and walls. Search for them by blasting and bombing the stones.

ENERGY TANKS

EN: 99
+ 149

Samus Aran's optional, needs power for the support and other vital functions. Samus can carry six tanks. Each tank has 100 available energy units.

MISSILES

Missiles are used to blast red doors and certain enemies, including the Metroids themselves. Each missile container adds five missiles out of 250 you have.

ROUND BALL

Get this just in the left of where you start. It lets you roll up right so you can roll through narrow passages.

LONG BEAM

The Long Beam increases the range of your attack. It is one of the essential weapons that you should collect early.

BOMBS

Use Bombs to blow holes in floors, or use the blast to bounce Samus (Jaws) using the Round Ball over obstacles.

ICE BEAM

The Ice Beam freezes foes temporarily. Once frozen, use them as stepping stones or blast them with missiles.

HIGH JUMP

The High Jump Boots are used to reach out of the way places, or when there are none. The extra boost lets Samus half again as high as a normal jump.

SCREW ATTACK

Spinning jumps become an effective weapon once Samus has the Screw Attack. While spinning, Samus is like a buzz saw that destroys virtually all enemies.

VARIA

The Varia is one of the most difficult items to find, but it's worth the effort. It is a type of armor that reduces damage from enemies and fires by half.

WAVE BEAM

Although the Wave Beam is a powerful weapon, it does you no good against the Metroids. It is most useful when fighting Kraid and Jolly.

METROID BY THE NUMBERS

There are many surprises in Metroid. One surprise is that there are four endings, determined by how fast you finish the game. The chart to the right shows the items you should get and the order in which you should get them. The numbers correspond to numbers on the maps. The minimum essential items needed to finish the game are shown in red.

BEST ENDING

Win in two hours or less to see Samus Aran's true self.

THE BATTLE OF BRINSTAR

Samus' mission begins in an area of tunnels called Brinstar. Here the tunnels are composed mainly of stone and there are long shafts leading up and down. Prepare to meet many dive-bombing Skrees and Rilos as you search for Power-Up options. This is the easiest area of the planet to clear, so use it to learn all of Samus' moves.

HIDDEN PASSAGES

Hidden passages and items are indicated on the maps by a star symbol.

HIDDEN ENERGY

Samus must use bombs or lasers to reveal the hidden tunnels and items. To reach the energy tank in the ceiling near the starting room, shoot it, freeze a Spiny or Skree about half way to the tank, jump onto the frozen creature and then jump to the energy tank.

THE WAY TO TOURIAN

After defeating the Mini-Bosses, shoot the statues and take the elevator to Tourian.

QUICK ENERGY

Samus can quickly refill her energy tanks by defeating enemies that stream out of the pipes. Use the two pipe method. Stand between the pipes and zap foes from one pipe. When an item appears, grab it, then turn and shoot the enemy from the other pipe.

Not every enemy has an item. When one appears, move quickly to grab it, then turn and fire.

KRAID'S HIDEOUT

Make sure you have extra tanks, the bomb device and missiles before venturing into Kraid's lair. Kill Ridley's Minions before going after Kraid.

CRITICAL HIGH JUMPS

You must have the High Jump Boots in order to reach certain areas, such as the rooms where the Kraid's Minions, the Bees are in Norfair, or that should be your goal since you have collected so many items as possible in Brinstar. The High Jump Boots are also important to escape the Ice Zone area. You can also jump just as the laser reflects to get out.

THE FIRES OF NORFAIR

METROID

Norfair is a region of lava pools and glass bubbles. This is where you will find the Screw Attack, Wave Beam, and High Jump Boots, plus extra missiles and energy tanks. Take the Ice Beam with you and freeze enemies for platforms in order to jump over high walls. This is also the path to Ridley's Hideout, which is your next target.

THE DANGER ZONE

If you fall off these stacks of blocks into the lava, roll up into a ball and use your bombs to blow you upward to safety. It won't be easy, so try not to fall.

THE ROAD TO RIDLEY

The next stop is in Ridley's Hideout below Norfair.

ENEMIES OF BRINSTAR AND NORFAIR

MERO

They hover near ceilings and often attack in groups.

ZEB

They fly out of pipes and are a good source of quick bombs.

ZOOMER

Roll up and round the corners they go, and they are easy to defeat.

SKREE

They dive bomb straight down from the ceiling.

RIPPER

Although they don't attack, they will hurt you if you hit them.

WAVER

These creatures fly in a wave pattern. Run and jump to avoid them.

RIO

They fire acid attacks from above, but it is hard to defeat.

MERA

They move in groups and can pass through walls.

SQUEEPT

It keeps out of your line of sight. Leads to things to avoid it.

GAMET

These have melted faces appear out of pipes in Norfair.

RIPPER MK II

A high speed ripper. Attack can't be destroyed, but can be frozen.

FIRE DRAGON

As you might expect, the Fire Dragon lives in lava and breaths flame.

MULTIVIOLA

This round being bounces off the walls. Eventually it will hit you.

GERUTA

This rock-powered creature makes a puff, aerial attack.

NOVA

These creatures of the clouds and fly as fast as you might think.

RIDLEY'S HIDEOUT

The first real test for Samus will be the battle against Ridley. Ridley is a mutant dragon who is a servant of the Mother Brain. Although Ridley's lair is called Hideout II, it should be the

first hideout you visit. Use the map to plan the quickest route to Ridley. You don't want to waste energy taking dead ends. Go left, down, right, down and left.

PERILIOUS PITFALLS

In the bridge area to the left of the entrance to this hideout is a hidden pitfall. The stones look solid, but they aren't. An energy tank acts as a lure to draw you in.

A SECRET PASSAGE

The fall pipe is impossible to jump over. Instead, try going under it. Back toward the entrance you can bomb down into the floor; then roll beneath the obstacle.

RIDLEY: The First MINI-BOSS

When you enter the chamber, Ridley begins firing balls of flame. Make sure your energy tanks and missiles are filled up. Two methods of attack can be successful. Using the Wave Beam, maneuver beneath Ridley's platform and fire upwards. Keep jumping to reduce the damage. The other method is to use missiles from point blank range or near the door.

Not only does Ridley shoot fire, it lays mines on the platform.

If you stand in the lava while attacking, jump continuously to reduce the damage.

Be sure to claim the energy tank beyond Ridley once the monster has been defeated.

ENEMIES OF RIDLEY'S HIDEOUT

ZERO

These looked up Zeb's will take more chess than their brothers in the higher levels.

HOLTZ

Try using missiles against these armored flies for extra points. Other weapons don't do the job.

VIOLA

This is a creature of fire, like the Multiviola. Different colors have different strengths.

MULTIVIOLA MK II

This enemy is even tougher to destroy than others in the Viola family. Try missiles.

DESSGEEGA

It jumps and attacks with awesome strength. Use the Screw Attack if possible, otherwise use missiles.

Mini-Boss number two is Kraid, a reptilian monstrosity which fires spikes from its belly. Although the hideout is near the starting

point of the game, visit Kraid only after having defeated Ridley. Here you will find treacherous shafts and other challenges.

FROM
BRINSTAR

SMART JUMPING

When you have to jump from one narrow ledge to another, the spinning jump can make the maneuver difficult. Instead, use the normal jump which is easier to control.

IMPOSSIBLE PASSAGES?

To get over these pipes in the narrow space available, Samus must be in "Bomb" ball form. Use the bombs repeatedly to blow Samus up to the top gap, then move to the right. It's difficult to time the bombs correctly.

A WIMPY IMPOSTER

This wilyjet imposter is easy to defeat, but it's not the real Kraid.

KRAID: The Second MINI-BOSS

Kraid fires spikes from his gut—spikes with the power of Samus' missiles. It won't take many of these to finish you off. Again, there are two methods of attack. Jump on the spot where Kraid stands and use missiles, or jump and fire from the lava pit with the Wave Beam.

A SECOND HIDDEN TANK

After defeating Kraid you can get a reward. Follow the door ledge to a hidden energy tank. Reveal it by jumping down and shooting it. Then roll up in a ball and as you fall toward the lava push right. In this way you will reach the tank and collect it.

SIDE-HOPPER

When a Memu starts toward Samus, keep it at bay like a cat using the Screw Attack.

Trappers like the Zeels, these alien insects will attack repeatedly.

Their spinning attack light when it's easy to fall with your laser.

Zeelas crawl around blocks like Zoopies, but they are much tougher to destroy.

They can't be destroyed, so don't waste time trying.

Side Hoppers live up to their name. The Hopping attack is actually an attack.

TO TRIUMPH IN TOURIAN

The final leg of the journey is through the Metroid-infested halls and shafts of Tourian. Before you can enter, you must defeat both Mini-Bosses, then shoot the two statues, which activates a secret bridge. Then you descend into the realm of the Mother Brain.

METROID MANAGEMENT

The Metroids don't die easily. Two steps are required to defeat them. First, blast a Metroid with the Ice Beam, freezing it solid. Second, use five missiles to destroy it. Defeated Metroids leave behind super energy and missile rebills that quickly replenish your stock.

FILL 'ER UP WITH METROID

The fastest way to replenish Samus' energy and missiles is to go back and forth through this door. Each time you come out, defeat the Metroid and collect energy and missiles. Then go into the door again. A number of Metroids will always appear when you come out the door.

FROM BRINSTAR

METROIDOLOGY

The Metroid are a race of semi-intelligent alien creatures controlled by the Mother Brain. They drain life energy from humans.

41. MOTHER BRAIN

RINKA RAIN

Alien ice rings of energy fired from nozzles near the Zebetites. They are the last stage of defenses for the Mother Brain. Use the Ice Beam to stop them, at least temporarily. Try to dodge as many as possible.

ZAP THE ZEBETITES

Zebetites are glass covered life-support devices that protect the Mother Brain. They don't attack, but they can regenerate if you don't destroy them completely. Fire missiles rapidly at the glass until a gap is left in the middle, then jump through and attack the next Zebetite.

MEET MOTHER BRAIN

As the controlling force of the Metroid and the despoiler of the planet, Mother Brain is one of the most dangerous beings in the galaxy. You'll need full missile tanks and six energy tanks, because you're bound to take a lot of damage while attacking this monstrosity from close range.

Mother Brain's only weakness is in the middle of the glass case, and only missiles will damage it. Attack from the platform left by the final Zebetite, making sure you fall backward when struck by Rinka. Keep moving to avoid damage.

There's one other attack option. Jump against the case itself and push left, dropping missiles into the opening.

Charge up the long staff before the planet explodes for 5 more 1000 seconds. Stay calm and don't spin jump.

Below are some specialized tips and tricks to help you become a Metroid Master, but there are some general strategies that can also help. First, don't waste time fighting everything in sight. Once you have the Screw Attack, just spin your way past foes. Second, write down and save your best passwords.

HIDDEN PLACES

Some areas are accessible only through hidden passages. Look at the maps to see if there is something beyond a floor or wall; then use bombs to find any passages.

The Bomb-Up method detailed below can be used to reach enemy secret passages that open above floor level.

STEPPING ON ENEMIES

If you have the Ice Beam you can reach high places by freezing flying foes, which you can then jump on like platforms. Remember, though, the enemies will thaw quickly.

If you don't have the High Jump Boots, or an enemy happens to knock you off a perch, use the Ice Beam.

THE METROID HOLD

Metroids move swiftly and won't let go if they grab you. If a Metroid does put its hold on you, there are two ways to escape. In most cases, roll up and use your bombs. Eventually the Metroid will let go. If you're near a door, go through the door; the Metroid won't.

BOMBING UP

Use the Bomb-Up technique in narrow places or when escaping lava. Roll up in a ball and bomb as fast as you can. Timing is a matter of luck and perseverance. You'll need several consecutive blasts to blow you over a tall obstacle.

IN A TIGHT SPOT?

If you're in a narrow tunnel like those found between doors and an enemy is attacking, use the Screw Attack. It may not look as if the Screw Attack will work, but it will and you'll destroy the enemy.

ENTER THE HIDDEN WORLD

Go to Midwest II where you found the Energy Tank. Shoot the door. Let the door close on you. Press Up and Down rapidly to scroll to the top of the screen. Push A. Repeat the process and take the third blue door on the left.

JUSTIN WHOP?

JUSTIN BAILEY is the top half of a code that lets you begin with full missiles and six tanks.

Metroid II for Game Boy is coming out this fall with Samus challenging a vast new world. More on this later.

SHATTERHAND™

Hi! My name is Steve Hermann, and I need your help! In the year 2031, and a group of renegade military scientists, led by General Gus Grover, has banded together using new cybernetic technology to create an army of cyborg soldiers. Their goal is to take over the world. We called this revolutionary group the Metal Command, and formed the Law and Order Regulatory Division (L.O.R.D.) to combat them.

I used to be a police officer in the Bronx. One night one day by a pair of Metal Command cyborgs, I had my hands crushed before I could escape. L.O.R.D. approached me, offering to replace my hands if I joined them. I agreed, and they gave me a pair of cybernetic super hands, capable of shattering metal on impact. I'm now known as "Shatterhand," and my mission is to crush the rebellion with my new metal "bustin' hands. Help me slay through General Grover's cyborg defenses and take him down!

"SHATTERING" HANDS

Shatterhand's new super fists give him an edge against the Metal Command's cyborg army. And he can make them even stronger by "energizing" them at Power-Up Stations found throughout the Metal Command's domain!

Shatterhand comes to the NES from Jaleco and was developed by Natsume, and it is a great action game! With graphics and play similar to S.C.A.T. and Shadow Of The Ninja, and a variety of unique features, Shatterhand has tough action that promises to provide a challenge even for action game experts!

POWER-UPS COST COLD HARD CASH

The Extra Power, Health, and 1-Up Stations along Shatterhand's arduous route don't offer their services for free. Try to carry some money with you at all times, and be sure to grab any dough dropped by shattered cyborgs. Sometimes a bag of gold can even be found in one of the white boxes that are left in each area.

BAGS OF GOLD

If you should happen to come across one of these treasures, punch it as fast as your fists will fly to get the most money before it disappears!

HEALTH STATION

Never miss an opportunity to completely refill your life at one of these rarely seen places. You never know what the Metal Command might have lurking about in your near future. To visit the station, just barrel down on top of the platform. However, the cost varies, so always keep some money with you!

EXTRA LIFE!

This, the most expensive of the shops and stations in the Metal Command's realm, offers a valuable commodity: an extra life that gives you an extra chance to clear a difficult stage. If you have the money, stop here to invest in your future and prepare for the upcoming cyborg-shattering invasion.

FIST POWER-UP

This station doubles the power of your fists for some seriously penetrating punching. The power fades as your life meters goes down, so avoid hits. Shatterhand's vest, which is a costly green, turns brown when you have "the power."

WHITE ITEM BOXES

When Shatterhand runs across a white box lying around, be sure to punch it to reveal the contents. Most contain items useful to him on his mission.

OPEN BOXES WITH CARE!

Stay alert when punching open White Item boxes. While most hold useful items, some are heavily trapped with a grenade as part of the Metal Command's effort to try to stop you here. If you find one, jump away quickly to clear the blast. They have really short fuses!

SATELLITE ROBOTS!

In some white Boxes, Shatterhand finds "alpha-beta" boxes that hold satellite robots. You can determine the type of robot by picking up three alpha and beta boxes in particular sequences. Each of the eight sequences possible yields a different satellite robot.

SEQUENCE

SATELLITE ROBOT TYPE

WEAPON

$\beta\beta\beta$	Wrenchbot hurls down a grenade of cyber-bombs ahead of Shatterhand each time he throws a punch.	
$\beta\beta\alpha$	Press B to prime Pyrebot, then press and hold it down to shoot out a long fiery jet that hurls your cyborg enemies in flames!	
$\beta\alpha\beta$	Vexbot fires three spinning orange discs that rotate rapidly around the cyborgs or invisible strings and return after a short time.	
$\beta\alpha\alpha$	Hunchbot discharges four kinetic energy balls that plod in the air and never appear to roll off along the ceiling.	
$\alpha\alpha\alpha$	Whiplashbot launches a single energy ball that rapidly whips back and forth.	
$\alpha\alpha\beta$	Laserbot fires a devastating laser beam.	
$\alpha\beta\alpha$	Swivelbot strikes out at enemy cyborgs by swinging a long and lethal sword.	
$\alpha\beta\beta$	Stombot spits out three splashing discs that ricochet off the walls until each fades away.	

ROBOTIC INVINCIBILITY

When Shatterhand manages to collect an identical combination of letters twice in a row, he temporarily dons cybernetic full-body armor and becomes invincible, with a powerful fireball as his key weapon!

Watch the timer. Invincible Shatterhand won't lose any life, but loses seconds of invincibility when hit.

AREA A: FACTORY

Okay! You know what it's all about—now let's get going! The Factory is our first step in reaching General Grover and shattering the Metal Command! I'll have to punch my way through barriers, numerous cyborgs and other cybernetic obstacles as I head down into the first area cyberboss, Balzire. I hope that we're ready!

WALL-WALKING MECHADROIDS

An annoying droid sometimes guards the many heavy barriers that Shatterhand must punch through. Some even pack lasers for added defense!

START

STRATEGIES FOR SURVIVAL AND SUCCESS

Take the time to learn these few simple tactics to help Shatterhand in his formidable mission. If our man of the flying steel fists is to succeed in pulverizing General Grover and the Metal Command's revolution, he must make the best use possible from each of his abilities!

SOME CYBERENEMIES ARE TOUGHER THAN OTHERS

Shatterhand won't find all the enemy cyborgs to be easy targets. Some are really tough, and he'll have to really goad on them to clear his path ahead!

RICOBOT: SHATTERHAND'S BEST FRIEND?

Ricobot's powerful, far-ranging energy abilities are very versatile and helpful weapons. Learn to use Ricobot well to clear out the treacherous course ahead!

PROTECT YOUR ROBOBUDDY

Shatterhand's little robotic pal can be a great help, but he can also be destroyed should he take too much damage. Be a good friend by protecting him.

MAKE THE MOST OF YOUR SHATTERIN' HANDS!

Shatterhand's cybernetic fists do more than just beat cyberfoes and obstacles. Punch wisely to destroy enemy bullets and bombs without getting hurt!

SCROLLER GAMES

Don't let yourself get "hooked into a corner!" The scroller feature can hinder Shatterhand's cybernoid progress because some previously defeated cyberenemies will reappear if he backtracks.

CYBORG DOUBLE-TEAMING

In some areas, the scrolling allows cyborgs to attack our partly cybernetic hero from both directions at once. Watch out!

Take the time to destroy each cyborg before moving on.

DROIDPOD GENERATOR

These generators pride themselves on being particularly irritating. They repeatedly send out a team of droidpods that like to home in on you. Punch them out one at a time, then go after the generator!

Pick a good place to stand and wait for the pods to come to you. Destroy each one as it approaches or its steady kamikaze flight.

FUN WITH FENCES

Grab and hang onto these wire fences by pressing up on the control pad!

SECRET ROOMS?

Rumor has it that Shatterhand can find secret rooms by punching certain walls.

Punch the wall; it might explode and leave you no room, or maybe not...

TELEPORT

Jump onto this handy teleport platform to gain access to Balzire's chamber.

BALZIRE: FACTORY MASTER!

To beat Balzire, duck beside him and punch as he shoots upwards. Avoid the bullets as they fall back down. Jump over the energy balls he throws, and jump clear when he swings his gun to clobber you!

DECISIONS, DECISIONS

We've cleared the Factory and now must choose which of the next five levels to take on first!

Pick one of the five stage choices and get going!

AREA B: REFINERY

Steam vents and fiery floors are just a couple of the challenges in the Refinery. New types of cyborgs and other enemies generated by General Grover are lying in wait for me. The Factory was only a practice round compared to this!

STEAM VENTS

Don't fall down in the steam vents!

I can see from this area that the Metal Command doesn't care about anyone but itself. The bombs are still falling from the skies, and the cyborg defense is out in force! The commander of this stage, Infernon, waits for me at the end of a nasty elevator ride.

UP AND UP AND UP...

This elevator shaft is a tower of fun, with falling bombs, dripping firepools and roving robotic heli-craft, to list just a few things that'll keep our hero hopping!

FALLING BOMBS

The rain of bombs begins anew, so keep an eye to the sky and dodge swiftly!

Castlevania II™

BELMONT'S Revenge

The Belmonts are back, and so is Dracula in Konami's second Castlevania action epic. The time is 15 years after Christopher Belmont thought he had put an end to Count Dracula in *Castlevania: The Adventure*. Now his son, Soleiyu, has vanished, and four evil castles have risen mysteriously from the earth. Once again a Belmont must rely on his courage and quickness. He'll have the aid of the Mystic Whip, a Battle Axe and explosive bottles of Holy Water. There are some new moves, too, like the ability to slide down ropes. The game controls are better than ever, but the challenges are also greater. So enter the haunted realm, if you dare.

TM/©1991 Konami

Journey Through Four Castles

It's a ceremony to mark the passing of the title of Vampire Hunter from father to son, Soleiyu Belmont disappears. At the same time, four castles erupt from the earth—a mute challenge to Christopher. Each of the castles has its own special brand of horror lying in wait, but Christopher must pass through them all to find his son. You decide which castle to tackle first, second, third and fourth. None will be easy. Only after defeating each of them will Dracula's Castle appear.

Crystal Castle

The Crystal Castle is built of delicate crystals, some of which may shatter if stepped upon. You will also discover pools of water, bottomless pits and walls of moving spikes. A few new enemy walks in the depths... and after that you'll still have the guardrail!

Cloud Castle

The Cloud Castle may drift in the sky, but it is made of stone and steel that can break the swirly Vampire Hunter. Concentration and quickness is essential to get past the mechanical pulleys and giant spinning balls that shoot upward to the ceiling with crashing force.

Rock Castle

New and old dangers lie ahead in the Rock Castle. Be careful when using your whip on the castles, as some may cast you into darkness, and you don't have a match. Long spurs thrust out of walls and ceilings of spikes drop from above. The armored Iron Drill is waiting.

Plant Castle

In the Plant Castle, Christopher meets a host of new foes, including skeletons who throw bones and spiders who drop from the ceilings. Bridges must be crossed with care and spiked ceilings may prevent you from jumping out of the way of danger. Kanako and Hissler wait at the end.

Save Yourself

One of the best innovations is the inclusion of a password that allows you to save the game. When you lose a life, choose the Password option. Write the Password down and return to the game later. The Password symbols are like those used by Commodore 64 for the NES, so record each symbol carefully.

The Weapons

Choose your weapon with care. The Chain Whip is best. Use the Battle Axe or Holy Water near the area in which it is found.

Leather Whip

You'll begin the adventure with the short leather whip.

Chain Whip

Use extra power and distance when you see the chain whip.

Fire Whip

The fire whip attracts balls of flame across the screen.

Battle Axe

This axe can be thrown at enemies if you have enough hearts for power.

Holy Water

Throw the bottles of Holy Water at foes and watch them burst into flames.

Hidden Rooms

Not every stone is as solid as it seems. Try climbing beyond the end of ropes into the brick ceilings.

Hidden rooms and items are found in the walls and ceilings of the castles. Only a few are shown here.

Dark Side Is A Shocker

The guardian of the Crystal Castle is Dark Side. He controls a lightning cloud that attacks with electric bolts, and in this room, lightning does strike twice.

When Dark Side begins to take shape, move in close and use your whip several times, then quickly run away.

The Lightning strikes where you last stood your ground, so keep moving across the room to dodge the bolts.

When the Lightning strikes it casts a fire. Be sure to leap over the flames that race along the floor.

1-Upmanship

For extra lives, look for the 1-Up symbol on the map.

Slide-Of-Hand

Christopher's great new move is the ability to slide swiftly down ropes by pushing the A Button. Use this technique in the long shaft. Even so, you can't go the distance in one slide before the spikes move in.

The Merman

The Merman is perhaps the most difficult of the area enemies in this game. He leaps every five seconds from one side of you to the other while he throws knives.

Jump to the center of the room from the rope. Run in the open you have room to maneuver.

As the Merman touches the ground, lure and whip him. He's very fast, so lure quickly.

CRYSTAL CASTLE

The Crystal Castle has many dangers, and many of them will be new even for seasoned vampire hunters. You are bound to take a few hits when you first start out, so whip the walls, especially above doors at the end of a stage. To search for life-replenishing meat. Listen for the ominous sound of cracking crystals, as well, for it signals danger. But the real challenges within come from the many creatures of darkness. Whip all the candles so you don't miss a weapon that could help you in the vicinity.

Fragile Crystals Underfoot

Many crystal blocks in this castle are old and worn. If you stand on them for more than a few seconds, they may shatter. Your only chance is to jump quickly from one crystal to the next. In some places you may have to dodge bats or the same boss. Take a look at the crystals and the ceilings, to plan the safest route.

Coins For A Longer Life

Collect coins to earn points and lives. Every 20,000 points earns you a life. At the end of a stage, extra lives become bonus points.

Whip Into Shape With Power Crystals

Use your leather whip like a chain whip, and a chain whip into a fire whip by grabbing Power Crystals. The Power Crystals are hidden in ceilings, but they are rare. If you lose a life, a Power Crystal will be close to where you begin again. Whip every candle in order to release crystals and other vital items.

A Tough Axe To Follow

Keep down the hole in the moving platform and jump to the pillars on the left and from there to the moving platform.

To escape from this dead end, jump to the pillars on the left and from there to the moving platform.

Keep Time

You have a limited time to get through each stage. If time runs out before you reach the next door or the end of the castle, you'll lose a life.

Take Hearts And Eat Beef

Collect as many hearts as you can in order to have the power to throw the Battle Axe and help Water.

Whip back walls to uncover the hidden plates of Meat. Meat will restore your life meter.

Enemies From Beyond The Pale

Ravens

Let these ravenous birds of prey pass overhead. Attack them when they swoop close to the ground.

Bats

Lash for bats on the ceiling. Many can be deflected as they sleep by attacking from a distance.

Knight's

Knight's are slow but powerful and heavily armored. Use your whip repeatedly and don't get too close.

Water Creep

These creeping amphibians live in the pools and are hard to see. Crouch in the water and whip them.

Putaquchi

Putaquchi spit balls that bounce off walls. Approach with caution, destroying the balls and the head.

Big Eye

Big Eyes sleep from above and roll straight toward you. Do bridges they explode and leave holes.

START

ROCK CASTLE

The map of the Rock Castle looks fairly easy, but the long empty corridors are not empty. Rats, bats and other foul folk live here in great numbers. The wall spikes are another challenge. You must time your jump from one spike to another with great precision.

Aim For Sleeping Bats

Sleeping bats are an easy target. Don't give them the chance to wake up. Hit them from a distance while they are snoring.

Stay the full length of your whip from the bat.

You'll catch the bat before it can attack you.

Pulleys

Climb quickly to the next rope as the Pulleys carry your rope upward.

Don't get stuck in the gears! You'll be sorry if you stay there long.

Jump from one rope to the other as the Pulley reverses direction.

CLOUD CASTLE

The Cloud Castle is filled with deadly surprises, like the spiked balls that shoot to the ceiling when you touch their chains, or the pulleys that reverse direction. Spiked ceilings and floors don't allow any room for error. And while you're avoiding the traps, foes are attacking.

Quickness Counts

Jump from the top of the first rope to the next rope over. The spiked ball will zip upward!

Quickly climb up the rope then jump to the next rope before the spike ball reaches you from below.

START

HIDDEN ROOM

Climb through the ceiling to the Hidden Room. Be sure to collect the Heart and Axe from the candles. Get the 1-Up from the third block to the right.

Big Eye Bombs

Jump over the first Big Eye near the pipe where there aren't any spikes overhead.

Run forward to the next narrow patch of ceiling and jump over the second Big Eye.

Whip the fourth Big Eye and it blows a hole in the bridge. Drop through the hole.

Avoid the Paragard and head to the right. From there, climb down the rope to the right.

Kumulo And Nimble

These guardians attack with fiery shots and trident tipped spears. Dodge the fire balls and strike each brute in the face.

Jump up and whip the monster in the face.

From the central platform attack both heads.

DRACULA'S CASTLE

The earth begins to shake and rumble, then the Castle of Dracula slowly rises from the dust. Now that the four smaller castles have been cleared of enemies, one final journey remains. Take a look at the map of the final castle that comes up on the screen before venturing inside. First you must cross the courtyard and defeat the Reepers. Inside are more sliding spikes, ropes, and monsters.

Bone Dragon

The head of the Bone Dragon appears from the rectangular holes in the hallway and it snakes from one hole to another. The entire hallway scrolls, as well, which means you must continually move to the right. The head of the Dragon is its weak point, and it's best to strike it from the right side.

START

Rat Holes

Stand below and just to the left of the rat's hole.

When the rat jumps, lure and whip it as it lands.

Out Go The Lights

These creatures are dangerous only in the dark.

Leave one candle burning, or darkness falls.

Angel Mummy

The two-headed fiend comes out of the well. Dodge the bones, but watch out for fire shots.

The two heads of the monster extend into the room on serpentine necks. You'll have to jump between two safety zones.

When the top head is hurling bones, stand on the floor just to the right of the lower ledge and attack first.

Stand on the highest ledge or to the far left when the lower head throws bones.

Don't Drop Out

The floor below is made of spikes that rise and fall. Each time you jumpy from one rope to the next, you'll land far down on the rope, well within reach of the spikes. Climb quickly upward to escape!

Iron Doll

At first the slow moving Iron Doll seems an easy target, but when it sheds its armor it becomes swift and fierce. Use the two ropes in the room to keep safe. Jump onto the ropes, then jump over Iron Doll, whip twice, and back off.

You'll have to get close to get a few hits. Don't stay too long; Iron Doll hits back.

When Iron Doll is almost below you, jump from the rope and land behind him to attack.

Whip repeatedly once Iron Doll sheds his armor. He's faster now, but less protected.

PLANT CASTLE

This castle is made of tangled roots and vines. Spiders, skeletons, strange beetles and exploding Big Eyes are just a few of the creatures who live within. Much of the fighting is done while hanging from ropes or spider threads, which limits your options for attack. Here you must learn new strategies.

TO A

Crossing The Spider Threads

In the hall of the spider threads on the opposite page, defeat the spiders only after they climb down.

Attack spiders when they climb down the thread, but when they're near the ceiling.

A

Before you enter the dangerous domain of Dracula, a map of his castle won't be by, displaying the passages you must tread.

The Final Struggle?

Beyond the Bone Dragon is the final confrontation for Christopher. But will you fight Dracula or an imposter? And where is his son, Soleiyu? To answer those questions requires the ultimate courage—to face the unknown.

Jumps on Moving Platforms and Judays require critical timing.

At the Forest, use back the Reaper's flying skills and jump over it as it retreats.

B

BART SIMPSON'S ESCAPE FROM CAMP DEADLY

LISTEN UP, SIMPSON!

Bart and Lisa are not happy campers! When Homer and Marge sent the kids off to a two-week vacation to the great outdoors, they had something slightly tamer in mind than Camp Deadly. At least Marge did. Probably. At any rate, Bart and Lisa have just met master instructor Ivo Flit Burns, and they've quickly decided that least camp is not for them. Escape is the only answer!

How did Burns choose Lisa, Bart and Lisa will be fighting and surviving Camp Deadly... or what?

From the first stomach blast of revella to the last muscular stroke of logs, Burns promises to make Bart and Lisa's lives living night mares. Although playing Captain the Flag, looting at the Mess Tent, and hiding in the forest sound like typical camp activities, at Camp Deadly they're strangely twisted.

RISE 'N SHINE, CAMPER! LET'S PLAY CAPTURE THE FLAG

Captain the Flag? "No problem," thinks Bart. He'll be the team captain, that is, and there that he's the sole member of Team A and that Team B includes Everybody Else. The "No Spivawds" rule is like an open invitation to Bart. Luckily for him, Lisa's hiding in a tree with a hammering that he can use to one the odds.

BART'S ARSENAL

Armed with Spivawds and Boomarang, Bart thinks he's ready to take on Everybody Else.

While he waits for his Boomarang to return, Bart sneaks Spivawds.

If he catches his Boomarang on its return, he can use it again.

STAGE 1: FUN AND GAMES

Watch out for enemies as you search for Flags. Use the Boomerang to attack enemies that flash, and pick up the Chocolate Kisses they drop. Each Kiss lets you absorb a hit without damage.

KILLER BEES!

Swarms of Bees circle the hives in a mad pattern. Wait for them to move to the lower left before you go out on a limb.

Climb up to find Bill's tree house. Jump over him, then turn and toss a Boomerang at his back.

BLINDSIDE BILL

When you're face-to-face with BILL, the Boomerang just becomes back.

Instead, hit him from behind and pick up the Kisses he drops.

DON'T GET STUNG!

When Bart blindsides Bill, Lisa gives him a beekeeper's hat that protects him from swarms. Its power doesn't last long, though, so hustle down the tree and grab the Flag by the hive before the safety net disappears.

HIT RICKY ON THE REBOUND

Jump over Ricky, throw the Boomerang towards the wall on the right, then jump back and let it hit him as it returns.

Hit Ricky with a rickety chair, then get the Football Suit from Lisa.

Wearing the Football Suit, you can blast through a forest of enemies.

BREAK FOR LUNCH

Camp Deadly's Mess Tent offers a full-meal deal that's more than even the hungriest camper can handle, but food fights are forbidden. The tofu burgers, broccoli and pomegranates on the menu can be used as weapons against enemies, but don't let the mess monitor catch you tossing your lunch. Your enemies retaliate, too—watch out for flying flatware!

He'll blow the whole on food fights and peach offenders.

If caught, you'll have to eat every burger in your arsenal!

Blast your enemies with burgers, but beware of the monitor.

When you're done, use the leftovers for boss fights.

MORE FUN & GAMES

After lunch, it's right back to capturing flags, but while you've been pigging out, Killer Hornets have moved in and sneaky snares have been set. Keep your eyes peeled and look for signs of pitfalls ahead.

KILLER HORNETS!

What makes them so mad? That's none of your beeswax—all you need to know is that you'd better see them before they see you! Inch slowly to the right. When you meet one, strike with the Boomerang before it moves.

IT'S THE DINNER BELL!

Mmmmm! The dinner menu features Spinach Piz-za and Fish. And if you clean up your plate, there's Anchovy Ice Cream for dessert. Twice as hard as the Lunch stage, Dinner serves up lots more enemies. Will Bart face them solo? That depends on whether or not you freed Madman Krogan.

Pick the Piz-za at your foes and beware of surprise attacks.

Watch for help from Madman Krogan here in the Mess Tent, too.

JASON AT CAMP DEADLY?!

No, but another madman is behind the mask: Madman Krimmel Krogan. He's been snared, and you have to decide his fate. You can either take him out of the game with your Boomerang or set him free. Which will it be?

Trapped and helpless, Madman Krogan's fate is in your hands.

If you decide to free him, go to the base of the rope to snip it.

Krogan seems to be a madman with manners. When freed, he salutes you.

ONE BAD APPLE

An apple a day may keep the doctor away, but being pelted with tons of them can be hazardous to your health. If you freed Krogan from his trap, he'll come to your aid, but if you did him in you're on your own.

When Krogan's mask appears, he won't be far behind—luckily for you.

The Madman enjoys your favor by stepping in to cover the bad apple.

Now you'll have a clear shot at this persistent apple-chucker.

AYE CARAMBA! A NUCLEAR SEWER!

Tired of capturing flags, Bart thinks he's ready to explore the camp's sewer system. As he suspected, it's a nuclear nightmare. Radiation leaks from the pipes above in huge drops, so he'll have to time his moves carefully to avoid the fallout. Jump over the drops as they fall and watch out for pits.

It's a truly real sewer, man. Radiation drips through the neglected, crumbling old pipes.

With the help of the Boomerang, you can avoid the radiation. It's a real sewer, man. Radiation drips through the neglected, crumbling old pipes.

LATER FOR CAMP DEADLY, MAN

Bart and Lisa finally have some time to put their heads together during a free exercise period, and they aren't about to blow this chance to plan their escape. The camp seems airtight, but Bart's willing to bet that Mt. Milehigh has a hole in its security system. What's a little hike when your freedom is at stake? But wait! What's that in the bushes? Could it be an elusive Camp Deadlin Vulture? Or is it just an eavesdropping Iron Fist Burns? Cool it on the planning session, Bart and Lisa—it's time for action!

Bart: Face it, Lisa—we've been duped! This place isn't, um...

Lisa: You're right, Bart, I was so looking forward to the nature walk and bird-watching tours promised in the brochure.

Bart: And what about the midnight bunk raids and all the junk food you can eat? Tada! Burger-Teach! We've gotta get out of here, Lisa. I've got an idea... If we can scale Mt. Milehigh we'll be off camp grounds—and free! Bart: Good plan, man. Let's go!

MT. MILEHIGH

Why does Bart want to climb Mt. Milehigh? Because it's there—and because the sign tells him not to. He'll face more than the forces of nature on this hike, though. Bats, birds of prey and rock-throwing thugs add to the challenge.

No nearly insurmountable ice fall for Bart Simpson. Let me at it!

Wow, maybe I should have brought some climbing rope.

Skeletons, too! Are they an successful escapees from Camp Deadly?

DO NOT FEED THE BEARS

For once Bart should heed a warning! The big, bad Bears in this forest are snoozing, but not soundly. They're very light sleepers, and they're incredibly cranky when they wake from their naps. Be cool, Bart.

Bart had better be light on his feet as he handles the Bears.

Don't step on those dry old sticks! The Bears wake when they break.

Now you're done it! The Bear didn't appreciate being boomeranged.

RESCUE LISA!

Burns has chained Lisa in a lighted room back in the Nuclear Sewer. Get her and get out! Your only chance is to steal away in the dark, so first you'll have to break the beacons overhead. Use the boomerang to bash them.

Four overhead lamps light the room where Lisa's chained. Jump and hit them with the boomerang to knock them out.

With the cover of darkness, you can rescue Lisa and high-tail it out of there. No problem!

LIGHTS OUT FOR CAMP DEADLY

What's a Power Plant doing out in the woods? Naturally, Bart is bound to find out. "Cool, man. Look at all of those buttons! Do Not Touch? Well, here goes!" With one touch of the button, Bart pulls the plug on Camp Deadly. Can camp continue without electricity? Not this one! Deadly's done for, and lucky campers are spared Tofu Burgers and Anchovy Ice Cream, thanks to Bart and Lisa. You just have to have the Simpson touch, man.

Do Not Touch! Sounds like a challenge to me, man.

We did it! Man, man, let's opt for a video camping experience.

TRACK MEET™

You're In the Blocks

Get ready to run, jump, throw and lift your way to the winner's circle in Track Meet from Interplay. You'll need good coordination to succeed (and it doesn't hurt to have incredibly fast thumbs either!). Track Meet can be played against the computer or against a friend using the Game Link cable.

Here's Your Competition

There are five different opponents waiting to challenge you. Each of your opponents has certain strong and weak points that you can use to your advantage. These guys will do some pretty wild and crazy things. Just remember not to drop your Game Boy if you start laughing too hard!

Ricky the Barbarian

He's big, he's dumb, he's slow. He's also your first opponent. The only thing you really need to look out for with Ricky is the weightlifting event.

Samuel Pasterni

Samuel Pasterni practiced for many years as a magician—a really BAD magician. Be careful! He's still got a few tricks tucked in his turtleneck.

Kazuki Katsura Ninja

Kazuki is a good all-around opponent. You'll just need to have "slap-quick" thumbs.

Jack Strap

Jack is simple, Jack is quick. That's why he's the best. He doesn't appear to have any obvious weaknesses. Good luck!

Iris & Charlie

We sense you're all Iris will stop at nothing to win. Outsmart him, if you can!

2 Player Game

You and a friend can work your way through all seven events. Take a tip from the computer-controlled opponents and try to make your opponent laugh while you're playing. It's sneaky, but it works!

Let The Games Begin!

OK, it's competition time. You need to get yourself ready both mentally and physically. First, take a few deep breaths, close your eyes and concentrate on doing the best you possibly can. Do a few quick thumb stretches to limber up. It would be quite embarrassing to pull a muscle as you're about to win! Seven grueling events are ahead of you. Let's take a closer look.

100 METER DASH

1st

The 100 Meter Dash is a simple event, but you need to be fast! As soon as you see "Go!" at the top of the screen, start pressing the A Button as fast as you can.

2nd

HURDLES

In the Hurdles event, you press the A Button to run and the B Button to jump. In order to get the best possible time, keep pumping the A Button while you are jumping over the hurdles.

3rd

JAVELIN THROW

First, run using the A Button. After you pass a line on the path, press the B Button to aim the throw and hit the B Button again to let go. Experiment with different angles.

4th

POLE VAULT

Again, use the A Button to start running. Press the B Button once to plant the pole, and again to let go. You can select the height of the crossbar. Practice makes perfect.

5th

LONG JUMP

Run like crazy using the A Button. Just before you get to the sand pit, press the B Button once to set your take-off point, and again to choose the angle of the jump.

6th

DISCUS THROW

Press the A Button again and again to spin. Then use the B Button to let go of the discus. Let go on your second spin for maximum power.

7th

WEIGHTLIFTING

This is probably the toughest event. Press the A Button as fast as you can to keep your power up. Hit the B Button three times to lift the barbell. Your timing has to be just right.

More Information

False Start

If you start too early, you will receive a beautiful face plant. Unless you have a really good plastic surgeon, you should avoid false starts at all costs!

Winning

If you beat your opponent, he will show obvious signs of defeat. Meanwhile, you'll wave your arms around like a true champion!

Stay Ahead

Try to stay a few hundred yards ahead of your opponent. He will almost always win big in the last event, weightlifting.

Oops!!!

Don't get too crazy in the discus throw. You might break something! Like all great sports, there is always an element of risk.

Your Rewards

All truly great athletes should be able to display the fruits of their labor. As you defeat more opponents, your trophy room will begin to fill up.

MONOPOLY

Often called the most popular board game ever, Monopoly has been around since the mid 1930's. Parker Brothers has now released Monopoly for Game Boy. The game play is almost exactly like the NES version. You can test your luck and bargaining skills against up to three other human or computer controlled players.

A variety of Games

A normal game can be selected or one of the eight pre-programmed scenarios can be loaded. These scenarios add new twists to Monopoly.

There Are 8 Different Scenarios

• The Big Boys

Each player gets full blocks of property and a fair amount of money.

• Trader's Delight

Get ready to barter! The first hour of this game will be full of trading action.

• Even Steven

The properties are divided more or less evenly between the players.

• Small Stuff

All of the properties below Free Parking are owned. Buy some houses early.

• Money Isn't Everything

Players start with plenty of property, but only \$200. Be thrifty with your funds!

• Short And Sweet

This scenario usually is over very quickly. Each player gets some powerful, developed property.

• Building Shortage

You get plenty of property, but all of the houses and hotels have been added.

• It's A Start

This scenario is just what it says it is. Not much, but it's a start!

Use The Time Limit?

Monopoly games have been known to go on for hours. If you have limited time, use the Time Limit.

Buying Property

At the start of any Monopoly game, you generally want to buy as much property as you can. However, when your funds start to dwindle, you'll need to be more choosy about your purchases. This chart can help you be a smarter shopper.

Utilities & Railroads

The Monopoly board has four railroads and two utilities (Electric Company and Water Works). Many people avoid buying these properties because they do not appear to pay very much money when other people land on them. The thing to consider regarding these properties is how often people land on them. The railroads are, in fact, the most landed-on property group.

Extra Subs and Missiles

Our agents off the Atlantic Coast have discovered two different codes for this underwater adventure. One allows you to start your mission with 25 Submarines and the other one awards you with 25 Missiles. Start the game and wait for the map to appear. Next, for 25 Submarines, press and hold the A and B Buttons, then press the Select Button, Up on the Control Pad and Down. If you'd like to begin with 25 Missiles instead, press and hold the A and B Buttons when the map shows, then press Up and Down. Your first Submarine will start with this extra load of Missiles. If it's destroyed, though, your next Submarine will start with the usual three Missiles.

On the Map Screen, press and hold the A and B Buttons, then press Select, Up and Down. You'll begin with 25 Submarines. If you want to begin with 25 Missiles, press and hold the A and B Buttons, then press Up and Down.

Sketch Bonus

You can take a break from blasting the Bydo Empire with a drawing program that is built into your R-Type Game Pak. Watch the demonstration of the game and wait for the list of high scores to appear. Then press Left and Down on the Control Pad and the A and B Buttons all at the same time. A program called the "De Souza Editor" will appear. Press the Start Button and you'll see a cursor in the upper-left corner of an otherwise blank screen. You'll be able to

move the cursor with the Control Pad and draw by pressing and holding the A Button. If you want to erase, press and hold the B Button and move the cursor across the area that you would like to wipe out.

When the list of high scores appears, press Left, Down, A and B at the same time to call up the De Souza Editor.

Move the cursor with the Control Pad, press A to draw and press B to erase. A little sketching will keep your mind off the alien-obliterating mission that lies ahead.

COMING SOON

Fans of the NES classic, Metroid, have been hoping for a sequel to their favorite space adventure for a long time. And now, finally, it's on its way, exclusively for Game Boy!

In Metroid II—The Return of Samus, the famed space hunter, Samus Aran, travels to the home planet of the deadly jellyfish-like Metroids to get rid of them once and for all. As Samus, you'll explore the dark passages of the

planet, learn a ton of cool new moves and, eventually, fight to the planet's surface. Along with the classic Metroid weapons like Bombs, the Ice Beam and the Screw Attack, you'll earn a new arsenal including a strange sphere that allows you to stick to walls and ceilings!

The new items include a sphere that allows you to hook for secret passages in the walls and ceilings.

Watch for a feature review of this gigantic adventure in a future issue of Nintendo Power!

Explore the caves of the Metroids and make your way in the planet's surface.

Super NES Q&A:

ANSWERS TO YOUR TOP 10 QUESTIONS

1 HOW MUCH WILL THE SUPER NES COST, AND WHAT IS INCLUDED?

The Super Nintendo Entertainment System will include the Super NES 16 bit Control Deck, a Super Mario World Game Pak, 2 Controllers, an AC power adapter, a Stereo AV Cable and RF Switch, plus manuals and warranties. Expected retail prices will be in the neighborhood of \$200 for the Super NES and around \$50 for Super NES Game Paks.

2 WHEN WILL THE SUPER NES BE AVAILABLE IN STORES?

The first Super NES units and Game Paks arrived at stores in the United States during September, but some areas of the country may not receive the Super NES until later this fall. (The Super NES won't be available in Canada until sometime in 1992. We'll keep you posted.) If you're having trouble finding a Super NES, Nintendo Consumer Service Representatives will be able to help you find stores stocking Nintendo products in your area. Give them a call at the number listed on the next page.

3 WHAT IS A 16 BIT MACHINE?

The term "16 bit" refers to the Central Processing Unit of the Super NES, which is the brain of the system. It means that the Super NES can process 16 bits of information at the same time. That makes the Super NES twice as powerful as the 8 bit NES. The increase in processing speed means that the Super NES can produce spectacular effects such as color layering that allows you to see through objects or to rotate and scale backgrounds.

4 WILL NINTENDO STILL MAKE NES GAMES?

You bet! With over 30 million NES Control Decks in use in the United States alone, licensee programmers and companies aren't about to turn their backs on the NES. The top designers in the world will continue to create hits for the NES.

5 CAN BOTH SYSTEMS BE CONNECTED TO ONE TV?

Yes they can. You can hook up your NES using the RF Switch and the Super NES using the Stereo AV Cables as long as your TV or VCR has AV input jacks. If you don't have AV jacks, you can use two RF Switches, one plugged into the other. The system manual fully covers connections.

6 HOW MANY GAMES WILL BE AVAILABLE FOR THE SUPER NES?

When the Super NES went on sale last month, *F-Zero* and *Pilotwings* were also in the stores. Since then, games such as *Gradius III*, *Populous*, *Chessmaster* and *Super R-Type* have been shipped out. If they're not in the stores yet, they'll be there very soon. Super Mario World comes with the Super NES set. Other games that are scheduled to come out soon include

Final Fight, *UN Squadron* and *Drakhen*. More games will be coming out every month. At last summer's CES, more than 40 titles in progress were displayed, and about 20 should be out by the holidays.

7 WHY CAN'T NES GAMES BE USED ON THE SUPER NES?

When Nintendo's designers began planning the Super NES, their goal was to make the hottest game system ever. At first, they wanted to make the new machine compatible with NES Game Paks, but they soon realized that it would be much more expensive and some of the extra features of the Super NES might have to be sacrificed. They didn't want to compromise on quality. Besides, it's a simple matter to connect both NES and Super NES to one TV.

8 WHAT ACCESSORIES WILL BE AVAILABLE FOR USE WITH THE SUPER NES?

There are no plans for Super NES accessories in the near future, but further down the road, there may be many controllers and specialized products available. Always be sure to look for the Nintendo Seal of Quality to insure that an accessory is compatible with your system. Since the Super NES has an expansion port like the NES, anything is possible in the future, including network attachments, keyboards and CD ROM drives.

9 WILL THE SAME GAMES BE AVAILABLE FOR BOTH THE NES AND SUPER NES?

Programmers try to make use of the features of the Super NES or NES when designing games for each system, and not all games require the extra-sophistication of the Super NES. As a result, identical games probably won't be made for both systems. Instead, look for special versions of popular games such as *Paperboy*, *The Simpsons* and *Castlevania*.

10 HOW CAN I FIND OUT MORE ABOUT THE SUPER NES?

Keep looking in the pages of Nintendo Power. Just as Nintendo Power is the source for NES and Game Boy tips, maps and strategies, it will also be your best source for information on the Super NES and Super NES games. That doesn't mean we're going to devote the entire magazine to Super NES games. Nintendo Power will continue to provide the hottest coverage of games for the NES, Game Boy and the Super NES. Whatever your choice of systems, Nintendo Power will have it covered. You can also contact Nintendo Consumer Service for specific questions about Nintendo products.

Return To A Magical World!

Remember Ghosts 'N Goblins for the NES? It was easily one of the most challenging games around. Capcom has now released an updated version, Super Ghouls 'N Ghosts, for the Super NES. You will find yourself confronted with eight brand new levels of intense game play. This is a journey into a magical world of horrific monsters and elaborate terrain.

Lots Of Armor And Weapons

A knight just isn't a knight without a shining suit of armor. You'll collect armor and weapons that will be dropped by your enemies as you defeat them.

Gold Armor

As you gain better armor, your weapons will increase in power. Gold Armor is the best, but it's also quite difficult to obtain. Be sure to jump everywhere to find hidden treasure chests!

Master The Double Jump

The double jump is one of the keys to success in Super Ghouls 'N Ghosts. Jump once, and while you are in the air, jump again.

Double jump straight up to avoid being hit or to get to items that you can't otherwise reach.

The double jump technique is also a great way to jump past some enemies.

When faced with a gap too big to leap in a single bound, double jump!

As you begin the game, the first four levels are displayed on a map. This is only the beginning. Scroll to

the right to see the next four. They're even more difficult!

Stage 1 The Graveyard

In the graveyard, you will be ~~taunted~~ ~~to~~ ~~many~~ ~~gripping~~ sights. Zombies emerge from their caskets. Fiery snake heads track your every move. Evil towers try to drop skulls on your head. It's business as usual in the graveyard.

Big Waves!

When the waves roll in, you had better find a nice solid place to stand.

Moving Ground

You'll find the earth move under your feet. It's just another great example of what the Super NES can do with graphics.

1st Boss

Zawel! It has a loooooong neck!

Stage 2 Ghost Ship

On the Ghost Ship, you'll find treasure, devious traps, and of course, lots and lots of ghosts. Check out the incredible sound! Remember that the water is cold and that you can't swim wearing a suit of armor.

Look Out!

Ghosts pop up right where you least expect them. Keep a close eye on these floating spirits.

Swinging Blades

The Swinging Blades can be tricky to jump over. Use a double jump to make it easier.

Take The Raft

After you get past the ship, hop onto the Raft.

2nd Boss

This guy wants to get close to you—real close!

Stage 3 Snow Mountain

In this stage, you'll need to climb up a snow covered path. Nasty spikes stick up all over the place, so stay alert. There are a lot of enemies here also, particularly as you get near the end of the stage. Look for some helpful hidden Power-Ups!

Snow Plants

These pesky plants seem to creep up when you least expect it. Shoot them before they can fire.

Ice Worms

Defeat these enemies while they are still in crystal form. After they thaw, look out!

Air Attack

Enemies begin to come at you from all directions. Spin Jump, dodge and shoot to defend yourself. It helps to have your wings Powered Up.

3rd Boss

Your best position for the attack is right in the middle of the screen.

Stage 4 Big Cave

The walls are alive and they're out to get you! This stage really shows off the graphic capabilities of the Super NES. The entire screen rotates in true Super NES fashion. You may very well forget which way is up!

Background Rotation

Impressive Mode 7 graphics! The entire background rotates when you jump on the platforms.

Moving Platforms

When you're on the moving platform, enemies will try to keep you off.

4th Boss

It's absolutely HUGE! Your best bet is to aim for its heads.

Multiple play modes and flashy graphics make Hal's new golf game challenging and fun. Practice first, then switch to Stroke, Match, Tournament or Vs. Hal mode. And if you miss TV instant replays, you'll appreciate the Memory mode, which captures your holes-in-one, albatrosses and eagles so you can play them back and admire them at your leisure.

SLOPE

Take a closer look at the hole before you begin. Select Slope to see a grid that defines the hole's contour.

ZOOM

Zoom in to magnify certain parts of the hole. Define the area you want to enlarge then press Zoom again.

CUT

Select Cut to trim part of the hole from the viewing area and to see a cross-section of the terrain.

Show Some Grit On The Green

Putting takes a light touch and finesse, just like in real golf. Check the slope to see what contours you'll have to compensate for, then line up with the cup. Close shots get super close-ups. You might even get to see the ball drop. But if your shot is too hard, chances are that it will slip right over the cup.

Instant Replay!

If you make an outstanding play and no one's there to witness it, don't worry—thanks to the game's Memory mode, you'll have the proof in instant replay! When you shoot a hole-in-one, an albatross or an eagle, you'll get a password. Use it in the Memory mode to relive your momentous feat over and over.

It's Tee Time OUT HOLES

Once you've selected your clubs and fine-tuned your game in the practice mode, it's time to take to the links for 18 holes of top-flight competition.

HOLE 2
351 Yards
Par 4

Hole 2 begins gently to the right and narrows between two bunkers at the end. Shoot to land to the right of the second bunker.

HOLE 1
403 Yards
Par 4

The first hole begins sharply to the left. Off the tee, shoot for the center of the fairway just short of the first bunker.

HOLE 4
182 Yards
Par 3

Finally, a short hole-but that doesn't mean it's easy. You have to cross water and land to the green between two large bunkers.

HOLE 3
519 Yards
Par 5

A bad shot will get you soaked on Hole 3! Off the tee, aim for the short fairway section on the far side of the pond. Good luck!

HOLE 6
374 Yards
Par 4

The sixth fairway teases around three bunkers, and bunkers also surround the green. Try to land to the right of the third bunker.

HOLE 5
417 Yards
Par 4

Hole 5 is straight and narrow. Its distant hole is between two partly bunkers, which you'll have to land between all the tee.

HOLE 8
355 Yards
Par 4

With water gullies and bunkers everywhere, Hole 8 will keep you on the straight and narrow. Stay to the center of the fairway.

HOLE 7
518 Yards
Par 5

Go for distance with your tee shot and clear the water with your second, if you overhit the green, get out your Sand Wedge.

HOLE 9
211 Yards
Par 3

Last of the Out Holes, number 9 is short but not necessarily sweet. If you overhit the green, you're likely to hit a bunker.

IN HOLES

Most of the In Holes are straight, but they have more obstacles than the holes you've completed. Precisely placed shots will keep you on the fairway and out of trouble.

HOLE 10
529 Yards
Par 5

It's a long way from the tee to the pin in Hole 11, and a slice or hook will take you into dangerous territory. Shoot straight!

HOLE 11
452 Yards
Par 4

Shoot for the left side of the fairway over the lip of the water. Avoid the bunker on the right and head straight for the green.

HOLE 12
177 Yards
Par 3

Hole 12, aka Righty, is short but sneaky. Be sure to check the slope before you shoot for the green—the ball can roll right.

HOLE 13
423 Yards
Par 4

A cluster of bunkers just west of the fairway can cause problems, and a huge bunker on the far side of the green needs long shots.

HOLE 14
469 Yards
Par 4

A right angle, Hole 14 is long and lean. Off the tee, shoot over the first bunker to land to the right of the second.

HOLE 15
391 Yards
Par 4

Hole 14's fairway is nice and wide, but a sudden gust can carry your ball into the water on the left. Watch the wind meter!

HOLE 16
469 Yards
Par 4

A right angle, Hole 15 is long and lean. Off the tee, shoot over the first bunker to land to the right of the second.

HOLE 17
162 Yards
Par 3

Hole 17 is short but the green is surrounded by water. Hit the green with your low shot, crossing over the water and bunker.

HOLE 18
420 Yards
Par 4

The only way to make par or better is to clear the stream with your first shot, then clear a pair of bunkers on your way to the green.

A NEW DIMENSION FOR A CLASSIC GAME

Many of you "R" familiar with the great play and theme of Irem's R-Type, having spent hours on the arcade, Game Boy and NEC versions. Many of the stages and enemies are the same in Super R-Type, but the deep space drama comes to life like you've never

seen it before thanks to the awesome resolution and graphics capabilities of the Super NES. The designers at IREM made excellent use of the huge color palette for intricate details on the background screens as well as enemies. As for challenge, it's legendary!

The R-9
The R-9 Star Fighter is the state-of-the-art genius of Earth pilots.

SUPER FEATURES OF THE R-9

What makes the R-9 such a special ship? For starters, it's fast and maneuverable, and with the Power Pod it is almost invulnerable. Weapon upgrades are super, too.

POWER POD & PLASMA

Attach a Power Pod to either the front or back of the R-9. The Pod is an almost invincible shield and a weapons platform for cannon, missiles and lasers. Plasma protects your top and bottom sides from alien attackers.

POWER POD

PLASMA

POD POWER

Detach the Pod and operate it separately, or shift it to the star. Plasma acts as an extra shield.

Third level Pod rears up gives you extra power. You'll need it all!

SUPER ENERGY SHOTS

Power-Up the R-9's cannon for a super, alien-melting blast of raw energy by holding the B Button until the meter at the bottom of the screen fills with both blue and orange.

ENERGY SHOT

When the shot meter fills with blue, use Energy Shot. Fire straight ahead.

SUPER SHOT

If orange fills the shot meter, the Super Shot appears with fire a wave.

CLASSY WEAPONS WITH GALACTIC PUNCH

Weapon upgrades for the Power Pod give you the edge against Bydo Empire foes who don't know when to quit. From missiles to lasers, the enhanced weapons all have special uses. For instance, the Reflect laser is lousy in a fight against waves of attacking ships, but it's great against some of the bosses.

Weapons are limited in the first level, but after that, prepare to pick up a host of them.

Reflect lasers are useful in a few areas, but not the most.

HOMING MISSILE MK I

An enemy will only escape this missile.

SHOT GUN BOMB

This clears for a wide pattern, but so will it.

GROUND ATTACK LASER

Some floors are designed for attacking them.

SKY ATTACK LASER

This laser fires straight ahead to a given pattern.

SPREAD BOMB

This creates explosive attacks along the ground.

SPREAD LASER

An all-around attack against all your enemies.

A SCI-FI MASTERPIECE

The graphics of Super R-Type are so stunning that you'll want to play just to see what comes next. It's a world composed of mechanical and biological life forms. Very eerie. How is it done? With intricate details on even the smallest objects, multiple scrolling backgrounds that give a super 3-D look, and huge, complex enemies that get your adrenaline pumping. In space, nobody dares to blink.

Super graphics compel you to keep going, no matter how tough the game is.

GENTLE-EARTHLINGS, START YOUR MATTER CONVERTERS

Before you launch your R-9 into the fierce fray of space combat, you'll have a choice of difficulty levels from which you can choose. At the Novice level, the action is slower and the enemies fewer. The big plus of playing at Novice level is that you get to keep special weapons when you continue a stage. Easy, Normal, Hard and Pro levels are progressively more difficult with more enemies packing greater fire power.

STAGE 1
GALACTIC SPACE

Alien ships appear from behind planets and out of the vast night of galactic space. You'll have to make use of the R-9's quick controls immediately. Watch out for asteroids and the explosive mines!

The Wanderer leaves a trail of mines. The Power Pod comes in handy when scanning them.

Two squadrons of Elys Empire ships circle in the middle of the screen. Learn to dodge them.

STAGE 2
ALIEN RUINS

Relics of an ancient, alien civilization don't need digging up. Running on "auto", the defenses are still formidable. Crushing arms, narrow passages and swarms of enemies will test your reflexes.

These large ships pop up from the water, lower a missile, then fire cruise missiles, which are as detailed and as dangerous as the ship. You'll have time to shoot most of the ships before they launch their missiles.

Wave tank robots roll out of the hole of the alien ruins and attack from the rear and fire at a narrow corridor; you can pick them off with missiles. Grab the missiles just before the tanks appear.

Zetonic is defeated by spinning blades and powerful energy beams. Your R-9 has only a small area in which to maneuver! Beware the middle.

STAGE 3
THE CAVE

Rocket powered goldfish, swift currents and dead ends are just the start of your troubles in this level. New weapons are available, if you survive long enough to get them.

Once hit, the goldfish secret travels in a straight line. Use missiles to do them in.

Byzed super tadpoles and jets of water that try to smash you against the rocks, you will find the Giant Crab.

Sea urchins at the end of the cave and is protected by alien serpents. These weak spots are small but visible.

STAGE 4
BATTLESHIP MK I

Veterans of the earlier versions of R-Type for the arcade and Game Boy will recognize the Battleship enemy from level 3. Maneuver in the tight spaces around the heavily defended ship as you fight your way to the Prisoner!

Behind the ship it's as good, but the final few missiles strike, making it tougher than ever.

"R" YOU READY
FOR MORE?

This is just the beginning of the adventure. Seven stages await dedicated pilots, all of them as brilliantly detailed as those shown here. If a challenge is what you want, you won't be disappointed. The Bydo Empire must be stopped at all costs.

Nintendo Power celebrates the World Series by taking a look at two new baseball games—Super Bases Loaded in Now Playing and Roger Clemens Baseball in a separate review. Then get set for hot

CAPTAIN AMERICA AND THE AVENGERS

Marvel's marvelous super heroes come to life in Data East's *Captain America And The Avengers*. As you may guess, action is the name of the game when Captain America and Hawkeye set out to rescue their buddies. The diabolical Mandarin has captured Vision and Iron Man and is set on ruling America! The control is good and so are the graphics, both in the cinema-type scenes and during fights. There are nifty, super hero moves, too—spinning jumps and swinging from bars. Switching back and forth between Cap and Hawkeye keeps things hopping.

Save the U.S.A.

The avenging heroes will travel across the country to carry out their missions. You select which hero to move next, beginning in the Old South and moving north then west.

action with Marvel's super heroes, *Captain America And The Avengers* and *Wolverine, Pirates!* and *Pilotwings* wrap up this month's quick peeks with adventures by sea and by air.

Dramatic, animated cinema scenes introduce the game and add to the story as Captain America and Hawkeye wreak justice across the country. The artists at Marvel and Data

East's programmers did a great job recreating the comic book heroes on video. Pay attention, because clues and fighting techniques are often given by Wasp between mission assignments.

It Takes All Kinds

All kinds of action, that is. Running, jumping, spinning, swinging from pipes—the super heroes do it all, and then some. Each has his own special weapon. Captain America hurts his shield like a deadly frisbee while Hawkeye takes aim at bad guys with his bow and arrow.

WOLVERINE

Wolverine from LJN sends one of Marvel Comic's most popular X-Men on a solo journey through a nine stage maze. The super hero with Admantium Claws has been mysteriously taken to a strange island. It's your mission to guide Wolverine through a huge complex on the island and face-off with arch villains Magneto and Sabertooth. Your weapons are super strength, sharp Claws and acrobatic abilities. You'll jump and slash your way through the evil armies and search for the exit to each level.

Your Admantium skeleton is pulled by the magnets. Watch out!

Use your powerful Claws to slash your way through Sabertooth's maze.

Search For Secrets

It takes trial and error to uncover the many secrets of the mysterious maze. Some areas are both long and deep. At times, you'll just have to jump off a platform and hope that there is another platform below. In Level Two, the Trial in the Sky, you'll find a set of two moving platforms when you jump down from a higher perch. Another platform, which is just out of reach, will move into your range if you kneel and punch in the air. There are many similar mysteries throughout.

Kneel and punch in the air to make the platform on the right take you to a special door.

Psychic and forces wait in this hidden chamber to give you special healing powers.

PIRATES!

Ahoy, me'hardest! Ultra Games and the programmers at RARE Ltd. have brought the PC classic from Microprose to the NES for all you would-be swashbucklers and privateers. Now you can sail the Spanish Main as the captain of a French, English, Spanish or Dutch ship, seeking plunder by sea and land. Attack enemy vessels with the cannon, then board them and fight hand-to-hand, or sneak into a Spanish town at night and make a deal with the governor. If you fight well and keep your crew happy, you could soon command an entire fleet! The skills you need to master include Navigation, Gunnery, Fencing, Medicine, Wit, and Charm. There is also a good deal of talking to people and gathering news.

Command every aspect of pirate life, from fighting battles to sailing a ship. There are many options and views.

Booty, Booty And More Booty

Booty is the lifeblood of Pirates. You need gold to keep your men loyal, for provisioning your ships and to make deals. Sometimes the booty is gold, but it can also be trade products, extra ships, food, tobacco, or even land. From Florida to South America, dozens of ports are fat with plunder, but many are also heavily defended. It's up to you to choose targets wisely.

Swashbuckling Strategy

At the beginning of the game you'll select a special skill. Choose Fencing as it gives you the greatest versatility. During battle sequences, whether on land or at sea, close quickly and fight the enemy leader in a duel instead of using your cannons. If you are an expert swordsman, you'll stand a good chance of taking the enemy without damaging your ship or losing crewmen.

You can even up your chance of getting plunder by taking on the leader of the enemy in a duel. You'll have your choice of using a dagger, Longsword, or Cutlass.

PILOTWINGS

Nintendo's Super NES flight-action game combines flying challenges from parachutes to airplanes, but the most impressive part of the game is how the graphics rotate and scale to give a very real feeling of flight. The game is a series of tests. At the easiest stage, simply land a plane or parachute onto a target. Later, as your piloting skills increase, you must fly complex courses or perform other aerial acrobatics to score enough points to move onto the following stages. The password feature makes it easy for pilots to perfect their skills and move on to new challenges. Maneuvering control is also excellent, and an explanation of the controls of each flying device can be brought up on-screen before the flight.

Pilotwings boasts some of the best graphics and play control of any Super NES game and showcases the potential of the system's special features such as scaling and rotation.

Join The Club

We have some bad news, Ferry, Lance and Shelly! You've been selected by the EVIL Syndicate to rescue the missing pilot! You'll have to fly through a series of traps and obstacles to reach the rescue point.

Learn to operate planes, parachutes, rocketbelts and hanggliders at the Flight Club. Master the lessons, then fly a helicopter on a rescue mission. Expert Level courses include tricky winds and night flying.

All this fun! And a story too! Big Al has a problem. The Flight Club instructors have been snatched by EVIL, and you are the only ace around.

Bonus Stages

There are three different types of bonus stages in Pilotwings. Two of the bonus stages involve a birdman—a man with Pegasus wings. In the first "birdman" stage you'll become so tongue-tied and fly your way toward a target. The second "birdman" stage wildly by pushing the A button and tries to stay aloft as long as possible. The third bonus stage is Penguin Blimp. How do you get a bonus? Try landing on the moving targets during the regular stages.

SUPER BASES LOADED

Playing the perfect baseball game is the idea behind Jaleco's Super Bases Loaded. You'll have to excel at all aspects of the game and avoid making costly errors or your ranking will suffer. It won't be easy, though. First you'll have to master the controls and come to grips with the perspective, which is always from the outfield looking in, even when you are at bat. Once you have the hang of the basics, you can create your own customized players and teams to take out to the ballpark. How about creating a designated hitter who bats .500, or create an entire team of super sluggers? There are other options, too. You can play the computer or a friend or simply watch the computer play itself. There's also a Designated Hitter option for added authenticity.

Creating a team that is a contender starts before you take the field. By checking the stats of all players and pitchers, you can put together an excellent lineup. A good team can give you a definite advantage. You can even create super players with out-of-this-world stats!

A Major League Challenge

The fictional teams are from all over the U.S.A. As your ranking improves, you'll face tougher competition in the next game. The ultimate goal is to defeat a Level 5 team and play the perfect, error-free game, but it takes a lot of practice to get there.

Defense Is The Key

Play the ball according to whether it's in the infield or on its way to Siberia. Ignore the inset diamond on short pops and line drives. Since the dot that represents the ball moves more slowly than the actual ball on the field, look at the field and move the player closest to the ball. If the ball is knocked deep into the outfield, use the inset diamond to watch the ball until the outfielder runs into view.

Watch the ball when it's in the infield and run to make the play. Watch the ball in the inset.

Judge the position of the ball by its shadow on the field and position yourself for the catch.

This issue features the first Super NES chart of recent releases. We may be early in listing *Actraiser*, *Castlevania IV* and *Super Ghouls 'N Ghosts* but we want to make sure that you're caught up with all of the titles that have been mentioned in previous issues. While all Super NES titles feature great graphics and in-depth game play, there just isn't enough space to go into detail about every release.

SimCity, which is also a popular personal computer game, puts you in charge of your own thriving metropolis. The Super NES adaptation is loaded with new great features. *Populous* is also a

personal computer adaptation. This involving simulation allows you to oversee an entire world and compete with a computer-controlled force. The spaceship shoot-'em-up sequel *Gradius III* really takes advantage of the Super NES's abilities to present gigantic characters and tons of moving objects. And the arcade hit *Final Fight* is a fantastic first street fighting game for this new game system.

You can find more about *Super Mario World*, *F-Zero*, *Pilotwings*, *Super Bases Loaded*, *Hal's Hole In One Golf* and *Super R-Type* elsewhere in this issue.

LISTING KEY

You can get the most out of our game listing by understanding the categories. Title, Company and Game Type are self-explanatory. Use this Key to understand Play Info and the valuable Power Meter ratings.

PLAY INFO

Games can be played with as many as four players at the same time. Some also employ a battery or password to save game play data.

1P = ONE PLAYER

2P-5 = TWO PLAYER SIMULTANEOUS

2P-A = TWO PLAYER ALTERNATING

PASS = PASSWORD

BATT = BATTERY

POWER METER

The Pros at Nintendo HQ rate each new game. Ratings are from 1 (poor) to 5 (excellent) in four different categories:

G = GRAPHICS AND SOUND

P = PLAY CONTROL

C = CHALLENGE

T = THEME AND FUN

WHAT'S POPULAR WITH PLAYERS?

Players polled pick favorites that reflect their diverse tastes, ranging from action to role-playing games.

BATTLETOADS HIT BIG WITH THE PROS

As a group the pros usually prefer RPGs, but action-packed Battletoads has captured an avid audience.

TRIED AND TRUE FAVORITES TOP THE DEALERS' LIST

Familiar names are still tops with the dealers, but they've also discovered some of the latest—and hottest—titles.

CELEBRITY PROFILE

— JOE REGALBUTO —

Playing Nintendo video games is like investigating a hot news story—you've got to be a daredevil and a risk taker," says Joe Regalbuto. Joe should know. He portrays Frank Fontana, who is Murphy Brown's closest friend and the investigative reporter who will "do anything to get the story" on the hit television series "Murphy Brown."

"Murphy Brown," now in its third season on CBS, also stars Candice Bergen as Murphy. The show recounts the behind-the-scene antics at the informational program called "FYI." "I love my job," says Regalbuto. "We have a great time on the set and the audience picks up on it, which is part of what makes the show so popular." The cast has a lot of fun together off the set, too. Last winter, a group including Regalbuto and co-stars Candice Bergen and Faith Ford, who

plays Corky Sherwood, went skiing in Park City, Utah, taking with them a trusty Game Boy to keep themselves amused on the ski lifts. "Playing Game Boy really keeps your mind off the cold," recalls Regalbuto.

While on the slopes, Regalbuto was reminded that being a celebrity can have its drawbacks. "Generally speaking, the positive response I get from fans is very rewarding, but sometimes I'd rather go unnoticed. There I was, going berserk down the mountain, falling head over heels, and someone shouts 'Hey, Frank!' from the lift above. It can be kind of embarrassing."

Regalbuto does most of his Nintendo video game playing with his kids, 13-year-old Nicolas, 11-year-old Michael, and 6-year-old Gina. "We like to play Baseball or Bases Loaded. My kids are so good, I have to twist their arms to get them to play against me!" jokes Regalbuto. "Sometimes they hold back and almost let me win, but they don't quite go that far. I really get a thrill out of playing the sports I loved as a boy on Nintendo video games," he added.

Regalbuto caught the acting bug early and after high school studied his craft at the American Academy of Dramatic Arts in New York City for two years.

Regalbuto's many television

credits include guest appearances on "The Golden Girls," "Night Court," "Amazing Stories" and "St. Elsewhere."

His film credits include "Six Weeks," "The Sicilian," "Missing" and "Star Chamber." Regalbuto also has many theatre credits.

When he's not performing, Regalbuto loves to play Nintendo video games, travel, cook Italian meals and play the saxophone—but not all at once, of course. And when he's facing the challenge of trying to beat his kids at video games he takes a tip from his "Murphy Brown" character and remembers that "sometimes you have to do anything to... save the princess!"

PAK WATCH

A LOOK INTO THE FUTURE OF NES AND SUPER NES GAME PAKS!!

As the holidays approach, lots of companies are getting ready to release hot new games for all three Nintendo systems. We can't cover all the titles in Pak Watch, but we'd like to give you an idea of what you might see in the stores, or maybe in your stocking.

Just Around The Corner

ULTIMA: WARRIORS OF DESTINY

FCI is marching fearlessly ahead with its continuing series of Ultima RPGs, following up on Quest of the Avatar with Warriors of Destiny. Someone (Lord British for one) just can't seem to get enough of this brand of quest epic. We expect he has made some sort of "Ultima-tum." What's in store for the die-hard, Ultima fan this time around is none other than a rescue mission for Lord British himself, who has mysteriously disappeared. At the same time, the evil Blackthorne has consolidated his power along with the Shadowlords.

As we might have expected from an Ultima game, the plot is detailed and dark, full of magic and menace. The graphics didn't surprise us, either. Basically the graphics relay information without a lot of frills. You don't have to run and jump like a super hero in an

Ultima game. What you do have to do is use your head. We also discovered that you have to use other people's heads, like those of Shamino, Dupre and other returning Ultimas characters who aid you, or hinder you as they see fit. The huge number of characters conveys a certain sense of being in a real world.

If your idea of fun is solving puzzles, creating strategies and saving the world from a fate worse than bad breath, Warriors of Destiny will keep you on the edge of your seat for 100 hours or more.

Just Around The Corner

G.I. JOE 2

G.I. Joe 2 is another sequel that should keep fans of the original game chewing their nails in anticipation.

Texan introduced America's favorite fighting man and action figure to the NES in early '91 with a rip-roaring mission that kept us glued to our bazookas. Now, at the other end of the year, Capcom is coming out with number two, and there are some changes for Joe and company.

First off, the fighting control has

been improved. It is now easier to switch from one weapon to another, or to use your fists. And, there are more weapons right off the bat—a big plus! You can even

PAK WATCH

try the weapons out before you begin play. Second, the good guys in the version we saw seemed to look like the bad guys—and neither of them looked as good as the characters in the first game.

As for the mission, Joe and his highly trained commando squad are after the Cobra organization. It seems that Cobra has raised a lost continent from the sea and vital U.S. interests must be protected. Weh just a little work, G.I. Joe 2 could be raised to NES hit status.

Just Around The Corner

CRAZY LAND

Dewey and Dixie are best friends, but when Dixie is snatched by a huge, mutant hand, Dewey becomes a super kid who bops evil clowns with a soccer ball. Yeah, we thought it sounded silly, too, but this action game from NTVIC and Vap (which also sounds kind of silly) can be a kick. Younger players, or older players, or players like us who have had it up to our ears with cuddly bunnies and happy ducks getting away with murder in

so many cartoons, comics and video games will especially love it. Better yet are the roller coaster sequences with their loops and jumps. The best move in the game

is a bicycle kick that makes Dewey flip head over heels. You can use this in the roller coaster cars, too.

The graphics are big and colorful—reminiscent of coloring books and building blocks. The game control is pretty good, and not too challenging except on a few jumps that must be made with precision. This game is definitely not for everyone, but if you've always suspected that clowns are inherently evil, as we have, you might like this one.

SUPER NINTENDO

ENTERTAINMENT SYSTEM

DEVELOPMENT DISPATCH

Now that the Super NES is in the stores, game makers are rushing to put their hottest titles on the shelves. The range of games—from RPGs to sports—is remarkable, and it keeps getting wider, which goes to show that the Super NES is super versatile. After a look at the games below, we think you'll agree.

Just Around The Corner

U.N. SQUADRON

Known as Area 88 when it came out in the arcades, this hot action game from Capcom puts you in control of a jet fighter protecting your home base from invading ground

and air forces. Well, that sounds pretty basic, but the game itself keeps you glued to the tube. Great control is part of the magic, but even more important to us was the challenge. There always seems to

be just enough enemy firepower to keep you on the edge of disaster. That's not all. You can upgrade your fighter and add super weapons to your on-board arsenal. You action fans are going to love it.

Just Around The Corner

POPULOUS

On the other end of the gaming spectrum is Acclaim's version of Populous, the hit PC game that defies all labels. At first glance, Populous looks like a board game with living pieces. Experiment a bit

tribe comes in contact with an enemy tribe, battle ensues. So strategy is what the game is all about, but we also enjoyed just watching and listening to the miniature world which seems to have a life of its own.

and you'll discover that you have amazing powers, such as the ability to raise and lower land. The point of the game is to manipulate your people and the land they live on so that they advance to higher levels of civilization. When your

GOSSIP GALORE

PAPERBOY 2

The Software Toolworks is bringing back America's favorite suburban action game, and they're doing it in a big way with three versions of Paperboy 2. One version will be for Game Boy, one for the NES and one for the Super NES, which is pictured below. If past popularity is any measure, this game (or these games) should be a hit. Although we haven't got our hands on Paperboy 2, the folks at TST are promising a whole new array of front yard obstacles, not to mention bad weather and angry dogs!

KINGS QUEST V

Konami is bringing King's Quest V, the PC game, to the NES. The highlight is the hero's pet owl, Cedric, who is often smarter than his master. The story is basic RPG stuff, and the look is definitely PC, but the text was well written and added to the fun. If only the controls were as well done...

CHESSMASTER

The Software Toolworks offers the first chess game for the Super NES in Chessmaster, and it looks like it offers a lot. Some of the options will be familiar to players of the Game Boy and NES versions, but the design team at Mindscape also made use of the Super NES graphics by including special 3D boards with both traditional and human pieces. Unlimited play levels mean that no matter how good you are, the Chessmaster can clean up.

FINAL FANTASY II

Square has created an RPG that will probably set the standard for the future. This is a great game, and talk about vast! There are cities and castles and countries to explore. There are huge dungeons and, oh yeah, the moon! If that isn't enough to make your A Button finger itchy, how about changing parties, quick decisive battles, and stunning graphics and effects. Okay, enough already, let's just say we like it.

COMING NEXT MONTH:

TOM & JERRY

Tom & Jerry are at it again, this time on your NES. Tom has nabbed Jerry's little nephew, Tuffy, and trapped him in the attic. It's up to Jerry to climb up and over obstacles to free him.

WHERE IN TIME IS CARMEN SAN DIEGO?

Who knows? If you find the clues, though, and piece them together, you might just discover Carmen's hideout. Time is of the essence, so you can't dawdle. Check it out next month.

FINAL FANTASY II

Following up the NES hit, Final Fantasy II for the Super NES is bound to be a blockbuster. Light Warriors will have more land to explore and more clues to uncover.

BATTLETOADS

Those ever popular Toad characters were a smashing hit on the NES and now they are headed for the Game Boy screen. Next month's review provides a first-hand look at their newest adventure.

Dear Readers,

One of the great things about planning Player's Poll Contests is that we get to meet people like NASCAR racing legend Bill Elliott. Last April's grand prize included a trip to meet him and see him race. A couple of weeks before the trip, his many fans here at Nintendo headquarters got to meet him when he dropped by on his way to a nearby race. We found that he is an ace not only behind the wheel but also at the controls of the NES! Elliott was actively involved in the programming of Bill Elliott's NASCAR Challenge, possibly the most complex NES racing game to date, and while he was here, the Game Counselors turned the tables and asked him for tips! Look for the new Game Boy version of his game this winter!

Bill Elliott is the winner's circle at Nintendo headquarters.
